MILITARY DEPARTMENT

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
1	GENERAL ANALYSIS			
2				
3				
4	The capital outlay program of the Military Department comprises the construction of armories, warehouses, rifle ranges, and other			
5	facilities essential to the organization, training, and morale of the California National Guard. The long-range construction			
6	program would provide armories and other facilities to house and train all units of the California National Guard as determined			
7	by the State's assignment of units and troop strength allotment.			
8	Since the 1951-52 Fiscal Year the Federal Government, under Public Law 783, Eighty-first Congress, has participated in the			
9	construction of armories on a cost sharing basis. Federal funds have been made available on the basis of up to 75 percent of			
10	qualifying phases of the construction. Such qualifying phases usually exclude such items as landscaping, fencing, roads, parking			
11	areas, walks, and utility connections.			
12	In addition to federal participation in the construction of armories, certain facilities such as: motor vehicle storage buildings,			
13	warehouses, airplane hangars, and shop buildings, primarily for the care and maintenance of federal equipment issued for state			
14	use, are financed entirely from federal funds except for the cost of planning and supervision of construction which is provided by			
15	the State.			
16	The capital outlay program proposed for the 1956-57 Fiscal Year provides for the acquisition of a site in Sacramento to be utilized for			
17	open storage. This property is leased at the present time. Funds are proposed for plans and supervision of construction of			
18	facilities to be financed from federal funds and for roof repairs to various armories.			
19	In addition it is proposed to extend the availability of presently authorized funds so that additional armories can be constructed and			
20	equipped.			
21				
22				
23	REAL PROPERTY ACQUISITION			
24				
25	PROPOSED 1956-57 EXPENDITURES *			
26				
27	Site for open storage—Sacramento.....	-	-	\$7,500
28	Budget Act of 1956 Proposal			
29	For the purchase of a site that is presently rented by the State.			
30	The property is required for open storage of vehicles.			
31				
32

46	AND EQUIPMENT			
47				
48	PROPOSED 1956-57 EXPENDITURES *			
49				
50	Preparation of plans and supervision of construction of projects			
51	financed by the Federal Government.....	-	-	\$99,000
52	Budget Act of 1956 Proposal			
53	To provide funds for architectural and engineering services involved			
54	in the design and construction of facilities, the construction of			
55	which is financed from federal funds.			
56				
57	Construct and equip armory—Riverside.....	-	-	215,000
58	State funds			\$86,000
59	Federal funds			129,000
60	It is proposed that this project be financed from savings in funds			
61	presently available to the Military Department. Some appro-			
62	priations expire June 30, 1956, and it is proposed in this			
63	budget that the availability of these funds be extended.

DEPARTMENT OF FISH AND GAME

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
1				
2	GENERAL ANALYSIS			
3				
4	The capital outlay program proposed for the Department of Fish and Game for the 1956-57 Fiscal Year provides for the construction			
5	of a food habits and disease laboratory in Sacramento. In addition provision is made for replacement of an 83-foot patrol vessel.			
6	Completion of the program of conversion of the radio network is also proposed.			
7	Minor construction projects provide for improvements and repairs to hatcheries, game farms, game and water fowl management areas,			
8	fish screens, and fish planting bases.			
9				
10				
11	MAJOR CONSTRUCTION, IMPROVEMENTS,			
12	AND EQUIPMENT			
13				
14	PROPOSED 1956-57 EXPENDITURES *			
15				
16	Laboratory building and auxiliary storage building-----	-	-	\$197,900
17	<i>Fish and Game Preservation Fund:</i>			
18	<i>Budget Act of 1956 Proposal</i>			
19	Provides for consolidation of existing leased laboratory facilities in			
20	Sacramento. The facility will be primarily for use in food			
21	habits and disease investigations under the federal aid projects.			
22	Rentals will be charged for space devoted to federal aid			
23	projects.			
24				
25	Motor vessel for marine wildlife protection patrol-----	-	-	180,000
26	<i>Fish and Game Preservation Fund:</i>			
27	<i>Budget Act of 1956 Proposal</i>			
28	Provides for replacement of the M. V. Albacore, an 83-foot motor			
29	vessel. A marine survey report on the condition of the existing			
30	vessel points up extensive repairs to the vessel. Replacement			
31	is provided in lieu of repair as being more economical.			
32				
33	Radio system conversion-----	-	-	186,050
34	<i>Fish and Game Preservation Fund:</i>			
35	<i>Budget Act of 1956 Proposal</i>			
36	Provides for conversion of radio networks for four of the five ad-			
37	ministrative regions. Conversion of Region V network is pro-			
38	vided in 1955-56. In addition, this item provides related radio			
39	equipment for additional wildlife protection positions in the			
40	1956-57 Fiscal Year Budget.			
41	The radio system conversion is required to comply with Federal			
42	Communications Commission orders. It is necessary for radios			
43	used in wildlife protection service to be changed from the			
44	frequency used by fire fighting agencies.			
45				
46				
47	ESTIMATED 1954-55 AND 1955-56 EXPENDITURES *			
48

7	Wildlife Conservation Board			
8				
9	GENERAL ANALYSIS			
10	Continuation of the acquisition, construction, and improvements of wild life conservation projects is planned. The \$9,000,000 appro-			
11	priated by Chapter 1327, Statutes of 1947, has been allocated and the \$3,000,000 provided by Chapter 1401, Statutes of 1951,			
12	is being allocated to projects by the Wildlife Conservation Board. An additional \$750,000 each fiscal year was provided by Chap-			
13	ter 1313, Statutes of 1955. The budget reflects the actual and estimated expenditure of funds previously allocated to specific			
14	projects by the Wildlife Conservation Board, and estimated expenditures from revenue provided by Chapter 1313, Statutes of			
15	1955.			
16				
17	REAL PROPERTY ACQUISITION AND CONSTRUCTION,			
18	IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
19	(All projects financed by a continuing appropriation from the Wildlife Restoration Fund under the provisions of Section 19627, Busi-			
20	ness and Professions Code.)			
21	Fish hatchery and stocking projects.....	\$233,920	\$152,656	\$100,000
22	For construction and equipping of facilities for fish hatching and			
23	stocking.			
24				
25	Warm water and other fish projects.....	18,391	502,258	653,674
26	For the acquisition and development of additional warm water fish			
27	lakes in various parts of the State.			
28				
29	Flow maintenance and stream improvement projects.....	36,803	142,810	152,000
30	For the construction of small dams to provide stream flow during			
31	summer months. This will improve the fishing on many miles			
32	of streams.			
33				
34	Fish screen and ladder projects.....	7,064	49,000	50,000
35	To prevent loss of fish through water diversions and to permit			
36	passage of fish over stream obstructions.			
37				
38	Waterfowl projects.....	1,595,091	1,107,725	561,778
39	For the acquisition and development of waterfowl management			
40	areas to provide for duck depredation control and public			
41	hunting.			
42				
43	General projects.....	5,500	141,253	163,000
44	To provide roads, trails, and parking areas to assist in access to			
45	ocean beaches and fishing areas.			
46				
47	Other upland game projects.....	—179 a	—	—
48	Crystal Lake Hatchery project.....	—	—1,717 a	—

1				
2				
3				
4				
5	GENERAL ANALYSIS			
6				
7	The objectives of the capital outlay program of the Division of Beaches and Parks are to acquire and develop the best available			
8	recreational areas throughout the State to meet the needs of the people of California for outdoor recreation; to acquire and			
9	preserve outstanding and representative examples of natural scenic values; and to acquire and preserve significant his-			
10	torical sites and structures for the education and enjoyment of both the present and future citizens of the State.			
11	The acquisition program as proposed in this budget is the result of extended and careful consideration by the Park Commission			
12	and is comprised of areas selected on the basis of the need for additional outdoor recreational areas and those areas which			
13	should be included in the State Park System by virtue of outstanding scenic beauty or unique physical characteristics.			
14	Although all the areas included in the five-year plan are incorporated in this budget, the time-consuming task of consummating			
15	an acquisition program of this magnitude may reasonably be expected to extend over a period of several years. For this			
16	reason, while appropriations for the full program are proposed, it is recommended that expenditures for the 1956-57 Fiscal			
17	Year be limited to \$7,500,000 with the sequence of acquisition to be determined by the Park Commission. While proposed			
18	acquisitions are shown in order of priority, delays unquestionably will be encountered and it will be necessary to acquire lands			
19	of lower priority before purchase of higher priority areas to avoid stagnation of the whole program.			
20	The major construction program proposed is directed primarily toward the expansion of facilities at existing parks and beaches			
21	so that the benefits from these expenditures may be realized as quickly as practicable. There are, however, several instances			
22	of initial development of state parks and beaches to provide recreational areas in regions of the State now seriously defi-			
23	cient in such facilities or to provide relief from overcrowded conditions at existing state parks.			
24	The minor construction projects proposed are for the most part required to correct deficiencies in the facilities of various units			
25	of the State Park System to provide facilities for improved utilization of existing parks and beaches and to repair or replace			
26	deteriorated facilities.			
27	In addition to the above, appropriations are recommended to continue and expand the riders' and hikers' trails program, to			
28	initiate the establishment of the roadside rest program, and to provide for the acquisition and restoration of historic ships.

Division of Beaches and Parks

GENERAL ANALYSIS

The objectives of the capital outlay program of the Division of Beaches and Parks are to acquire and develop the best available recreational areas throughout the State to meet the needs of the people of California for outdoor recreation; to acquire and preserve outstanding and representative examples of natural scenic values; and to acquire and preserve significant historical sites and structures for the education and enjoyment of both the present and future citizens of the State.

The acquisition program as proposed in this budget is the result of extended and careful consideration by the Park Commission and is comprised of areas selected on the basis of the need for additional outdoor recreational areas and those areas which should be included in the State Park System by virtue of outstanding scenic beauty or unique physical characteristics.

Although all the areas included in the five-year plan are incorporated in this budget, the time-consuming task of consummating an acquisition program of this magnitude may reasonably be expected to extend over a period of several years. For this reason, while appropriations for the full program are proposed, it is recommended that expenditures for the 1956-57 Fiscal Year be limited to \$7,500,000 with the sequence of acquisition to be determined by the Park Commission. While proposed acquisitions are shown in order of priority, delays unquestionably will be encountered and it will be necessary to acquire lands of lower priority before purchase of higher priority areas to avoid stagnation of the whole program.

The major construction program proposed is directed primarily toward the expansion of facilities at existing parks and beaches so that the benefits from these expenditures may be realized as quickly as practicable. There are, however, several instances of initial development of state parks and beaches to provide recreational areas in regions of the State now seriously deficient in such facilities or to provide relief from overcrowded conditions at existing state parks.

The minor construction projects proposed are for the most part required to correct deficiencies in the facilities of various units of the State Park System to provide facilities for improved utilization of existing parks and beaches and to repair or replace deteriorated facilities.

In addition to the above, appropriations are recommended to continue and expand the riders' and hikers' trails program, to initiate the establishment of the roadside rest program, and to provide for the acquisition and restoration of historic ships.

SUMMARY OF PROGRAM

Acquisition	\$25,606,045
Development	4,640,726
Riders' and hikers' trails	100,000
Roadside rests	450,000
Acquisition and restoration of historic ships	200,000
Redwood highway relocation	1,000,000
Total	\$31,996,771

RECAPITULATION OF PROPOSED ACQUISITIONS BY TYPE

Recreational Areas:		
Additions to existing areas	\$6,243,070	
New areas	7,879,900	\$14,122,970
Scenic Areas:		
Additions to existing areas	6,615,000	
New areas	2,167,575	8,782,575
Historic Monuments:		
Additions to existing areas	2,700,500	
Totals		
Additions to existing areas	\$25,606,045	
New areas	\$15,558,570	\$10,477,475

REAL PROPERTY ACQUISITION

PROPOSED 1956-57 EXPENDITURES *

Projects in Order of Priority

Avenue of the Giants			\$600,000 a
State Park Fund:			
Budget Act of 1956 Proposal			
To acquire a stand of giant Coast Redwoods equal in quality to the			
Rockefeller Forest, in the Humboldt Redwoods State Park, of			
which this area is a continuation. Directly on United States			
101, the Redwood Highway, 45 miles south of Eureka. Its			
spectacular flats and heavily forested slopes lie west of the			
banks of the main Eel River. The first unit of this project			
was acquired in 1940 as an addition to the Humboldt Red-			
woods State Park. Matching funds have now been assured.			
Adjacent, privately-owned forest has been logged, and this			
area is in the path of logging operations; its cost has been			
constantly increasing.			

* From Capital Outlay and Savings Fund unless otherwise indicated.

a Matching funds or lands anticipated.

6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Gold Discovery Site State Park (additional area)-----	-	-	\$250,000
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	To preserve some of the historically significant structures in the			
13	Coloma area and to better display and protect the natural			
14	scene of the effective discovery of gold in the State of Cali-			
15	fornia. It is still possible to prevent inappropriate encroach-			
16	ments upon the site where James Wilson Marshall discovered			
17	gold in 1848. The additional area will also provide area for			
18	restoration of Sutter's Mill and for the location of a museum.			
19				
20	Butano State Park-----	-	-	1,000,000
21	State Park Fund:			
22	Budget Act of 1956 Proposal			
23	To acquire 2,080 acres including 500 acres of outstanding virgin			
24	Redwood forest which exists in San Mateo County today,			
25	but which is being rapidly cut-over. Its acquisition now will			
26	serve to prevent subdivision development and to expand for			
27	general public use needed outdoor recreational facilities among			
28	the southern Redwood forests, for which there is great de-			
29	mand. In addition to the virgin forest, which will be pre-			
30	served primarily for its scenic beauty, and enjoyment by trail,			
31	the balance of the area proposed for acquisition is covered			
32	principally with 60-year-old second-growth Redwood and is			
33	highly adaptable for recreational development. Other State			
34	parks and beaches near that section of the State, such as			
35	Big Basin, Seacliff, and Portola are overcrowded, and this			
36	area is proposed to absorb some of the impact.			
37				
38	Folsom-Nimbus Project -----	-	-	2,093,900
39	State Park Fund:			
40	Budget Act of 1956 Proposal			
41	To acquire lands in addition to those lands which will be provided			
42	through long-term use permit from United States Bureau of			
43	Reclamation for the purpose of developing and operating a			
44	major recreational area on and around the Folsom and Nimbus			
45	Reservoirs.			
46				
47	Hueneme Beach -----	-	-	461,000 a
48	State Beach Fund:			
49	Budget Act of 1956 Proposal			
50	To preserve for public use 11,500 front feet of recreational beach,			
51	with sufficient upland area to assure adequate access, parking,			
52	and facilities for adequate use.			
53				
54	Pueblo de Los Angeles State Historical Monument-----	-	-	900,000
55	State Park Fund:			
56	Budget Act of 1956 Proposal			
57	Acquisition to preserve the environs of the origin of the present			
58	City of Los Angeles as represented in the project boundaries.			
59	This will make further provision for the preservation and restora-			
60	tion of an authentic example of early Spanish living and			
61	culture, and will provide for more adequate landscaping, access,			
62	and parking.			
63				
64	Torrey Pines Beach State Park-----	-	-	72,300 a
65	State Beach Fund:			
66	Budget Act of 1956 Proposal			
67	To acquire lands for development and for protection to the famous			
68	grove of Torrey Pines which are proposed to be gift deeded to			
69	the State in accordance with a plan agreed upon between the			
70	City of San Diego and the State Park Commission. The			
71	famous and picturesque Torrey Pines are members of a rare			
72	and local tree species found only in this immediate coastal			
73	locality and on one of the channel islands.			
74

7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Salton Sea State Park-----	-	-	\$225,000
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	To acquire additional lands while available for a long-range pro-			
13	gram of development for public use and enjoyment of a highly			
14	desirable recreational area and for the protection of the scenic			
15	beauties presented by the Salton Sea as viewed from the par-			
16	allel highway on the eastern seaboard. The southeastern sec-			
17	tion of California (the more arid section) is experiencing heavy			
18	demands for the establishment of parks and development of			
19	recreational facilities. Present developments are over-taxed and			
20	their operation over a period of the last two years indicates			
21	the need and future trend.			
22				
23	San Clemente Beach-----	-	-	200,000
24	State Beach Fund:			
25	Budget Act of 1956 Proposal			
26	To place in state ownership a strip of ocean frontage in order to			
27	assure the availability of this beach for full public usage.			
28	Highway improvement is constantly cutting travel time from			
29	densely populated areas and rapid subdivision activity in the			
30	surrounding area is over-crowding all existing facilities and			
31	areas.			
32				
33	Doheny Beach State Park-----	-	-	350,000
34	State Beach Fund:			
35	Budget Act of 1956 Proposal			
36	This is an outstanding beach, subject to but yet undeveloped and			
37	which is badly needed to relieve pressure on Doheny Beach			
38	State Park, which at this time is seriously over-used. The area			
39	is a part of Commission Approved Orange County Master Plan			
40	of Shoreline Development as priority 1.			
41				
42	Old Custom House State Historical Monument-----	-	-	115,000 a
43	State Park Fund:			
44	Budget Act of 1956 Proposal			
45	To remove unsightly modern structures from the immediate area			
46	of the Old Custom House, in order to more properly and			
47	authentically recreate the setting of the Custom House as			
48	it appeared when Commodore Sloat raised the American Flag			
49	there in 1846. This is one phase in the Custom House Zone of			
50	Preservation project.			
51				
52	Imperial Beach-----	-	-	650,000
53	State Beach Fund:			
54	Budget Act of 1956 Proposal			
55	To place in public ownership a potentially excellent recreation			
56	beach immediately north of the Mexican border and bisected			
57	by the Tiajuana River. At present the opportunity exists			
58	to create a park of major size in the extreme southern end			
59	of the State.			
60				
61	Columbia Historic State Park-----	-	-	420,000 a
62	State Park Fund:			
63	Budget Act of 1956 Proposal			
64	Acquisition of properties within the acquisition line, as approved			
65	by the State Park Commission, of an old mining town to pre-			
66	serve an example of a typical gold rush mining community.			
67	Further acquisition is needed to complete the project to prop-			
68	erly present this well-preserved historical town, and to prevent			
69	intrusion of developments not in harmony with the historical			
70	scene.			
71				
72	Thornton Beach State Park-----	-	-	400,000
73	State Beach Fund:			
74	Budget Act of 1956 Proposal			
75	To acquire lands and beach frontage between Skyline Boulevard			
76	and Coastline for scenic protection and to provide public			
77	access to additional beach area where subdivision and			
78	commercial development are rapidly removing public access			
79	possibilities. This area will proportionately serve the recrea-			
80	tional needs of three to four million people.			
81				
82	* From Capital Outlay and Savings Fund unless otherwise indicated.			
83	a Matching funds or lands anticipated.			
84

6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Stinson Beach -----	-	-	\$50,000 a
10	State Beach Fund:			
11	Budget Act of 1956 Proposal			
12	To eliminate a private holding totally within the boundaries of			
13	the park and which divides it through the center.			
14	This beach is exceedingly popular, being heavily used by people			
15	from the bay area. It is quite necessary that this area be			
16	acquired to provide adequate control for public use.			
17				
18	Montara Beach -----	-	-	125,000 a
19	State Beach Fund:			
20	Budget Act of 1956 Proposal			
21	To preserve a scenic beach and coastline in San Mateo County and			
22	to acquire sufficient upland area to develop for public use,			
23	outdoor recreational facilities.			
24	Acquisition is of importance here to assure public access to this			
25	beach area before subdivision and commercial development			
26	makes such acquisition impractical economically.			
27				
28	Eureka Bowl -----	-	-	500,000
29	State Park Fund:			
30	Budget Act of 1956 Proposal			
31	To preserve for park purposes a scenic portion of the Sierra Ne-			
32	vadas, including its six lakes and streams, which is not now			
33	represented in the State Park System, either by type or by			
34	geographic distribution. Secondly, to provide recreation			
35	facilities, display and preserve historic and natural values			
36	present in the project. A very high potential for winter sports			
37	developments exists here also.			
38				
39	Weaverville Joss House State Historical Monument -----	-	-	40,500 a
40	State Park Fund:			
41	Budget Act of 1956 Proposal			
42	To protect the scene and setting by the acquisition of additional			
43	land adjoining the Chinese Joss House. Proper display of the			
44	monument is prevented through the presence of several struc-			
45	tures and other developments. These lands should be pur-			
46	chased at this time to forestall further construction of in-			
47	appropriate structures and to preserve the historical setting.			
48				
49	Franks Tract -----	-	-	300,000
50	State Park Fund:			
51	Budget Act of 1956 Proposal			
52	To establish a state park in the delta area where there are now			
53	insufficient facilities for public access and to perpetuate a body			
54	of water acclaimed one of the best fishing areas in California.			
55	Though the marsh vegetation along the shore is typical of the			
56	delta area, the project has its greatest value for boating and			
57	fishing, although the development of camp and picnic areas			
58	will be required.			
59				
60	Manhattan Beach State Park -----	-	-	175,000
61	State Beach Fund:			
62	Budget Act of 1956 Proposal			
63	To continue the current acquisition program to increase public			
64	access and to place more adequate parking facilities in this			
65	congested but heavily used recreation beach.			
66				
67	Bolsa Chica Beach -----	-	-	1,000,000
68	State Beach Fund:			
69	Budget Act of 1956 Proposal			
70	To acquire a potentially fine recreation beach on United States			
71	Highway 101. With proper maintenance, this will be one of the			
72	most heavily used sandy recreational beaches in Orange			
73	County, due to its central location in a rapidly developing			
74	area. It is needed to supplement the facilities now over-taxed			
75	at Huntington Beach, nearby. It has the great advantage of			
76	possible acquisition of considerable upland as well as a fine			
77	beach.			

* From Capital Outlay and Savings Fund unless otherwise indicated.

a Matching funds or lands anticipated.

DEPARTMENT OF NATURAL RESOURCES—Continued

1	Division of Beaches and Parks—Continued			
2				
3	REAL PROPERTY ACQUISITION—Continued			
4				
5	PROPOSED 1956-57 EXPENDITURES *—Continued			
6	Hendy Grove -----	-	-	\$550,000
7	State Park Fund:			
8	Budget Act of 1956 Proposal			
9	To preserve an outstanding tract of coast redwoods on the Navarro			
10	River in Mendocino County, with adjacent land for its pro-			
11	tection and for the development of recreational facilities.			
12				
13	Point Lobos Reserve State Park -----	-	-	150,000
14	State Beach Fund:			
15	Budget Act of 1956 Proposal			
16	To purchase the last remaining private frontage between Carmel			
17	River Beach State Park and Point Lobos Reserve State Park.			
18	The lands in question control the foreground to the first view			
19	of Point Lobos by southbound travelers. The State has over a			
20	million dollars invested in land and developments at this area,			
21	and the remaining acquisition is essential to protect this			
22	investment, as adverse development on these key lands would			
23	tend to defeat the object of maintaining the beauty of this			
24	celebrated natural reserve.			
25				
26	Morro Bay State Park -----	-	-	12,000
27	State Beach Fund:			
28	Budget Act of 1956 Proposal			
29	To enlarge existing holdings at Morro Bay State Park, primarily			
30	for operational reasons. Acquisition will supply a badly needed			
31	well site to increase water supply for the park and will elimi-			
32	nate a private-owned parcel which has caused an operational			
33	problem. This consists mainly of bay frontage, adjacent to the			
34	park.			
35				
36	Colorado River-Picacho 4-S Ranch -----	-	-	100,000 a
37	State Park Fund:			
38	Budget Act of 1956 Proposal			
39	For the purchase of private land holdings and improvements situ-			
40	ated within the boundaries of this desert scenic and recreation			
41	area, along the Colorado River in Imperial County. Negotia-			
42	tions with the Federal Government for land surrounding these			
43	private holdings is currently being conducted which will come			
44	under a 50-year use permit. Operation of this area will be			
45	greatly hampered unless these private holdings are removed.			
46				
47	Colorado River-Quien Sabe Point -----	-	-	75,000
48	State Park Fund:			
49	Budget Act of 1956 Proposal			
50	To acquire approximately 250 acres of private holdings, some of			
51	which have incompatible operations and developments upon			
52	them, and that are surrounded by U. S. Government land			
53	which will be acquired through use permit from the Bureau			
54	of Land Management for a 50-year period. Negotiations for			
55	these government lands are currently in progress. Efficient			
56	operation of this area will be greatly hampered unless these			
57	holdings are eliminated.			
58				
59	Mount San Jacinto State Park -----	-	-	100,000
60	State Park Fund:			
61	Budget Act of 1956 Proposal			
62	In the existing 13-acre campground, an inadequate number of			
63	facilities are available for automobile campers and has been			
64	developed to the maximum. The area is completely surrounded			
65	by mountain homes on terrain unsuitable for campground			
66	development. Areas adjacent to the western park boundaries			
67	are rapidly being subdivided and should be acquired immedi-			
68	ately as other sides of park are unsuited for development.			
69	Portions of the area suitable for development may be acquired by			
70	special use permit from the U. S. Forest Service. However,			
71	the principal area of this addition will have to be purchased.			
72				
73	Pebble Beach -----	-	-	55,275 a
74	State Beach Fund:			
75	Budget Act of 1956 Proposal			
76	To place in public ownership a scenic stretch of coastline with a			
77	sandy beach, jutting rocky islands, and headlands. Adequate			
78	areas are available for installation of public facilities. Tidal			
79	pools display marine life of the northwest coast. Access is over			
80	paved road two miles northwest of Crescent City. Acquisition			
81	will assure public access over these lands to this fine beach			
82	and will provide a beach for public use and enjoyment in an			
83	area thus far poorly covered.			
84				

* From Capital Outlay and Savings Fund unless otherwise indicated.

a Matching funds or lands anticipated.

8				
9	Prairie Creek Redwoods State Park - - - - -	-	-	\$500,000 ^a
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	To preserve a canyon of unique beauty on Home Creek surrounded			
13	by a redwood forest. The walls of this canyon are covered with			
14	solid growth of five fingered ferns making an outstanding display			
15	of their 30-foot height. Sufficient surrounding acreage is			
16	required to prevent logging debris and erosion from destroying			
17	this beautiful area.			
18	The mile of scenic beach, which is desirable as an entrance and			
19	buffer to the canyon, as well as for recreational purposes			
20	together with historical value presented by the scene of early			
21	day placer mining.			
22				
23	Fort Ross State Historical Monument - - - - -	-	-	175,000
24	State Park Fund:			
25	Budget Act of 1956 Proposal			
26	To preserve an important historical site in connection with the			
27	early Russian occupation of the Mendocino coast. Archeological			
28	research has revealed that many historical sites lie outside the			
29	present monument boundaries. Additional land is required for			
30	development of sanitary and parking facilities for general			
31	public use, as well as to prevent intrusion of incompatible			
32	development in the immediate vicinity of the historical monu-			
33	ment, particularly between the monument, as presently defined,			
34	and the ocean shore. It will also include the site of the old			
35	Russian graveyard.			
36				
37	Pismo Beach State Park - - - - -	-	-	350,000
38	State Beach Fund:			
39	Budget Act of 1956 Proposal			
40	For acquisition of additional upland area and land parcels to			
41	consolidate existing holdings for better operational and scenic			
42	control, as well as to forestall further possible encroachment,			
43	in the event that subdivision activities are rejuvenated. This			
44	is a heavily used beach area in this section of the coast and			
45	additional expansion is required to preserve the area and make			
46	it available to the maximum number of users.			
47	Pismo Beach is the only state park that offers overnight camping			
48	facilities, between Morro Bay State Park in northern San			
49	Luis Obispo County and Refugio Beach State Park in central			
50	Santa Barbara County, a distance of some 120 miles.			
51				
52	Colusa-Sacramento River State Park - - - - -	-	-	50,000 ^a
53	State Park Fund:			
54	Budget Act of 1956 Proposal			
55	To acquire a typical portion of river frontage high in scenic			
56	values, strategically located at the head of navigation for			
57	cruisers on the upper Sacramento River. This will provide			
58	facilities and accommodations not now existent or adequate			
59	for the general public in an area which is not represented in			
60	the State Park System.			
61				
62	Emerald Bay State Park - - - - -	-	-	750,000
63	State Park Fund:			
64	Budget Act of 1956 Proposal			
65	Acquisition of this area which includes the very picturesque Cas-			
66	cade Lake, is primarily for the purpose of preserving this			
67	spectacular glacial lake in its natural setting. It will, too,			
68	provide areas for additional developments which will relieve			
69	the over-used D. L. Bliss State Park and perpetuate another			
70	area for public use near Lake Tahoe.			
71	* From Capital Outlay and Savings Fund unless otherwise indicated.

7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Salinas River Beach-----	-	-	\$100,000 a
10	State Beach Fund:			
11	Budget Act of 1956 Proposal			
12	To acquire an attractive dune area on Monterey Bay at the mouth			
13	of the Salinas River, rich in coastal sand dune floral display.			
14	This will assure availability of an excellent fishing area by			
15	providing access roads, parking and minor developments.			
16				
17	Calaveras Big Trees State Park-----	-	-	40,000
18	State Park Fund:			
19	Budget Act of 1956 Proposal			
20	Acquisition of considerable area surrounding the Calaveras South			
21	Grove is urgent, in order to provide for construction of fire			
22	roads and other protection facilities, and to prevent encroach-			
23	ment. It will also provide space for future needed park develop-			
24	ments and permit a forest sanitation program for protection			
25	to the virgin area.			
26				
27	Benicia Beach-----	-	-	275,000 a
28	State Beach Fund:			
29	Budget Act of 1956 Proposal			
30	To place in public ownership a 14,000-foot frontage and sufficient			
31	upland area for adequate development of a portion of the			
32	shoreline of San Francisco Bay immediately west of the City			
33	of Benicia. This area will lend itself to picnicking, fishing, sun			
34	bathing, and has excellent possibilities for the creation of a			
35	small boat harbor through future dredging of the bay. At the			
36	present time there is no state park on the upper reaches of			
37	San Francisco Bay.			
38				
39	Van Damme Beach State Park-----	-	-	19,500
40	State Beach Fund:			
41	Budget Act of 1956 Proposal			
42	This proposed acquisition is divided into four parcels, each of			
43	which is justified for various and different reasons.			
44	The first, to preserve over one-half mile of scenic headland; second,			
45	provide for development of access to the beach and much-			
46	needed boat launching area; third, to preserve one-half mile			
47	of the scenic Fern Canyon Drive; fourth, to bring into state			
48	ownership a finger of land protruding into the present bound-			
49	ary and reduce operational problems.			
50				
51	Mendocino City Beach-----	-	-	75,000 a
52	State Beach Fund:			
53	Budget Act of 1956 Proposal			
54	To provide access and public use of one and one-half miles of ocean			
55	frontage, high scenic and marine life values.			
56				
57	Anza-Borrego State Park-----	-	-	350,000
58	State Park Fund:			
59	Budget Act of 1956 Proposal			
60	For acquisition of private and public owned lands within approved			
61	boundary lines, in accordance with the master plan to con-			
62	solidate holdings, eliminate incompatible developments and			
63	activities, to preserve access to outstanding scenic areas and			
64	to assure perpetual protection for the greatest possible amount			
65	of the undisturbed desert scene within the Park. This is a			
66	portion of a program resulting from a thorough evaluation			
67	of conditions, trends and land use in this region. The outer			
68	boundaries of the park have been adjusted in an effort to			
69	remove from within the boundaries: the maximum amount			
70	of agriculturally productive land, to relinquish entirely, certain			
71	areas which have been determined not to be of park quality,			
72	or have lost this quality, through past and present military			
73	and agricultural activities, to eliminate certain outlying areas,			
74	the location of which makes effective administration impos-			
75	sible, the inclusion of some outstanding points of interest,			
76	geologically and botanically, which previously had been out-			
77	side of the boundary.			
78	This is one of the great desert parks in the United States and			
79	its popularity, particularly for winter use, is rapidly growing.			
80	It is pointed out, however, that although it is proposed to acquire			
81	83,290 acres it is also proposed to dispose of 40,720 acres of			
82	park lands as considered to be least desirable for park pur-			
83	pose resulting in a net gain of only 42,570 acres.			
84				
85	* From Capital Outlay and Savings Fund unless otherwise indicated.			
86	a Matching funds or lands anticipated.

5	REAL PROPERTY ACQUISITION—Continued			
6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Surfriders Beach -----	-	-	\$175,000 a
10	State Beach Fund:			
11	Budget Act of 1956 Proposal			
12	To perpetuate and assure continued public use and access to a			
13	unique section of ocean frontage, which because of unusual			
14	bottom slope and shoreline curve, is outstanding for use of			
15	surfboards and is considered one of the finest surfing beaches.			
16				
17	Knowland State Arboretum and Park -----	-	-	90,000
18	State Park Fund:			
19	Budget Act of 1956 Proposal			
20	To provide scenic and watershed protection and prevent intrusion			
21	of home construction within the logical confines of the present			
22	park area as delineated by road and topography. This addition			
23	will provide for public usage through the inclusion of an			
24	area where walks and trails will make possible the enjoyment			
25	of the native landscape, and arboretum developments.			
26				
27	Pismo-Avila-Cayucos-Cambria Beach State Parks -----	-	-	190,000 a
28	State Beach Fund:			
29	Budget Act of 1956 Proposal			
30	To continue the acquisition program consisting of additional up-			
31	land and beach frontage to assure public access and use and			
32	enable the installation of facilities and to stop the encroach-			
33	ment of these areas by subdivision activities adjacent to exist-			
34	ing park properties.			
35				
36	Twin Lakes Beach State Park -----	-	-	585,600
37	State Beach Fund:			
38	Budget Act of 1956 Proposal			
39	To expand and consolidate holdings in Twin Lakes area of Santa			
40	Cruz County. This unique area consists of two lagoons, an			
41	excellent sandy recreation beach and scenic rocky coastline.			
42	All park facilities in the Santa Cruz area are overloaded and it			
43	is impossible to adequately accommodate the public at present.			
44	Expansion of existing areas and acquisition of new areas must			
45	keep abreast of the increasing population and improved road			
46	conditions.			
47				
48	Del Monte Beach -----	-	-	250,000 a
49	State Beach Fund:			
50	Budget Act of 1956 Proposal			
51	To purchase an excellent sandy beach in the Del Monte area of			
52	the Monterey Peninsula at Monterey. While it will be admin-			
53	istered primarily for recreation, the preservation of this area			
54	from industrial or commercial use would enhance the setting			
55	of the Custom House State Historical Monument, the scene			
56	of one of the turning points in California history.			
57				
58	Clear Lake State Park -----	-	-	177,970
59	State Park Fund:			
60	Budget Act of 1956 Proposal			
61	To preserve a very interesting undespoiled section of natural			
62	growth and shoreline of Clear Lake for perpetual use and			
63	enjoyment by the people of the State. Some of these areas			
64	may be developed with facilities for picnicking and aquatic			
65	use. Also, included in the program are two privately owned			
66	parcels of land surrounded on three sides by the present			
67	park. These parcels present a problem, both from the stand-			
68	point of operation, proper development and scenic protection.			
69				
70	Imperial Sand Hills -----	-	-	75,000
71	State Park Fund:			
72	Budget Act of 1956 Proposal			
73	To preserve for public use and to prevent exploitation of this			
74	outstanding area of sand hills and dunes, with their scenic			
75	value, as a part of the California scene. Secondly, to pre-			
76	serve portions of the Old Plank Road, which extends across			
77	the sand hills, as a portion of the early day Transcontinental			
78	Highway between El Centro and Yuma.			
79	These lands are principally owned by the Federal Government but			
80	may be lost to other and less important uses.			

* From Capital Outlay and Savings Fund unless otherwise indicated.

a Matching funds or lands anticipated.

4				
5	PROPOSED 1956-57 EXPENDITURES *—Continued			
6				
7	Russian Gulch State Park (Mendocino County)-----	-	-	\$50,000
8	State Beach Fund:			
9	Budget Act of 1956 Proposal			
10	To bring under state control one of the most picturesque headlands			
11	along the Mendocino Coast. Being located adjacent to the			
12	present park beach and being visible from the bay and picnic			
13	grounds, commercial or other use of the proposed parcel would			
14	prove extremely detrimental to the park landscape and operation.			
15	The parcel at the present is undeveloped and should be			
16	acquired before costs become prohibitive.			
17	This will provide public access to this section of the coastline			
18	which is in line with the State's policy of providing access to			
19	water and waterways.			
20				
21	Lodi Lake -----	-	-	175,000
22	State Park Fund:			
23	Budget Act of 1956 Proposal			
24	To provide recreational facilities where such facilities are in heavy			
25	demand. This park, which has over 400,000 visitors each year,			
26	is being deeded to the State to match the state acquisition of			
27	additional river frontage. The project, when further developed,			
28	will provide a much-needed recreational area in a poorly			
29	covered section of the valley.			
30				
31	Santa Monica Beach State Park-----	-	-	900,000 a
32	State Beach Fund:			
33	Budget Act of 1956 Proposal			
34	The proposed additions will supply needed parking relief to the			
35	extremely congested area between the Coast Highway in front			
36	of the City of Santa Monica and the ocean. This is one of			
37	the most heavily used beaches in California and within the			
38	confines of the city limits of Santa Monica. Nearly 10,000,000			
39	visitor days were counted during the 1954 season. This con-			
40	stitutes more than 50 percent of the beach visitors in Los			
41	Angeles County for that year.			
42				
43	Corona del Mar Beach State Park-----	-	-	130,000 a
44	State Beach Fund:			
45	Budget Act of 1956 Proposal			
46	To purchase existing private holdings now intruding into the park.			
47	The properties in question are precipitous and rocky, but			
48	developments on them would be detrimental to park operation.			
49	With the acquisition of these parcels, it will be possible to			
50	construct additional access roads which will greatly relieve			
51	congestion and confusion caused by the existing narrow wind-			
52	ing access road.			
53				
54	Little Sur River-----	-	-	150,000
55	State Beach Fund:			
56	Budget Act of 1956 Proposal			
57	To acquire combination of river frontage, ocean beach, lagoon and			
58	a redwood canyon of great beauty in the Little Sur Valley, 18			
59	miles south of Monterey. This is a self-contained area, the			
60	charm of which would be ruined by commercialization or			
61	improper development.			
62	Popularity of the coastal area south of Monterey is well proven by			
63	the over-used condition prevailing at Pfeiffer Big Sur State			
64	Park, located 10 miles south of proposed area. Hundreds of			
65	vacationers and outdoor recreation seekers are turned away			
66	from Pfeiffer Big Sur every summer due to lack of area and			
67	facilities. Room for expansion there is limited by natural and			
68	topographical features of the area.			
69	Recreational possibilities at Little Sur include camping, picnicking,			
70	hiking, swimming, and fishing.			
71				
72	Russian Gulch (Sonoma County)-----	-	-	90,000 a
73	State Beach Fund:			
74	Budget Act of 1956 Proposal			
75	To preserve approximately 120 acres and 3,300 front feet beach and			
76	rocky seacoast to provide facilities and assure public access to			
77	the beach and coastline in an area where public access is			
78	extremely limited by rugged terrain and private ownership.			
79	It is certain that population increase will demand increased recre-			
80	ational facilities along this coast and acquisition should be			
81	made before development makes acquisition cost prohibitive.			
82	This area is typical of the coastal streams as they flow into			
83	the ocean and will provide some very interesting areas for			
84	development.

 a Matching funds or lands anticipated.

DEPARTMENT OF NATURAL RESOURCES—Continued

	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
Division of Beaches and Parks—Continued				
REAL PROPERTY ACQUISITION—Continued				
PROPOSED 1956-57 EXPENDITURES *—Continued				
1	Carpinteria Beach State Park-----	-	-	\$300,000
2	State Beach Fund:			
3	Budget Act of 1956 Proposal			
4	To acquire the only remaining adjacent area, which has beach and			
5	upland suitable for the expansion of facilities of this very			
6	heavily used beach park. Acquisition is imperative to stop			
7	further subdivision encroachment and assure area for enlarge-			
8	ment of facilities. This park is one of two areas now offering			
9	camping facilities on the coast from Doheny Beach State Park			
10	in Orange County to Pismo Beach State Park in San Luis			
11	Obispo County.			
12	Castle Crags State Park-----	-	-	150,000
13	State Park Fund:			
14	Budget Act of 1956 Proposal			
15	The existing Castle Crags State Park was acquired as the initial			
16	unit of a larger project. Acquisition of additional land, long			
17	deferred, is now made necessary by the proposed relocation of			
18	U. S. Highway 99 which will obliterate the present park			
19	entrance and several other park facilities. The acquisition of			
20	new land will make possible the replacement of facilities so			
21	eliminated, together with expansion to meet the increasing			
22	popularity of this park.			
23	Humboldt Redwoods State Park-----	-	-	500,000
24	State Park Fund:			
25	Budget Act of 1956 Proposal			
26	To acquire existing privately-owned properties, which are within			
27	the project boundaries of Humboldt Redwoods State Park.			
28	Some are timbered lands, but some are cutover lands more			
29	suited for recreational development. The watershed areas of			
30	Canoe Creek and Bull Creek will be endangered if additional			
31	lands in those basins are not acquired before they are logged.			
32	Acquisition of cutover lands, adjacent to existing holdings,			
33	will enable developments to be more properly placed to serve			
34	visitors and will serve to relieve existing virgin redwood groves			
35	from excessive use and undesirable encroachments and from			
36	fire and erosion dangers due to logging activities.			
37	Point Dume-----	-	-	800,000
38	State Beach Fund:			
39	Budget Act of 1956 Proposal			
40	To reserve for public use and enjoyment an area providing out-			
41	standing scenic views from the cliff tops at the westerly end			
42	of Santa Monica Bay. Extremely useable beaches are present,			
43	good fishing exists and adequate upland is available, although			
44	threatened by subdivision at the present time. This will adjoin			
45	to the south, Zuma Creek County Park and will prevent			
46	further encroachment upon the beach and its upland, through			
47	continued construction activities.			
48	Tomales Bay State Park-----	-	-	100,000a
49	State Beach Fund:			
50	Budget Act of 1956 Proposal			
51	To eliminate private ownership and further subdivisions now in			
52	progress within the park boundaries and to provide additional			
53	protection, as well as space for parking facilities in the vicin-			
54	ity of Shell Beach. The removal of private parcels is man-			
55	datory to protect the extremely high scenic values from			
56	destruction, as well as to preserve the unique ecology of the			
57	area.			
58	Pomponio Beach-----	-	-	75,000a
59	State Beach Fund:			
60	Budget Act of 1956 Proposal			
61	To preserve an area of scenic beach and coastline, and to provide			
62	sufficient upland to insure adequate space for parking, sanitary			
63	facilities and other requirements for recreation within easy			
64	access of three to four million people.			
65	Early acquisition is imperative before subdivision makes acqui-			
66	sition extremely costly and impractical.			

* From Capital Outlay and Savings Fund unless otherwise indicated.
a Matching funds or lands anticipated.

5				
6	PROPOSED 1956-57 EXPENDITURES *—Continued			
7				
8	Sunset Beach State Park-----	-	-	\$200,000
9	State Beach Fund:			
10	Budget Act of 1956 Proposal			
11	To acquire existing private property within the boundaries of this			
12	park, as well as a major expansion southward and other lands			
13	adjoining, to provide suitable lands for development urgently			
14	needed in this area. A fine sandy clamming beach and pictur-			
15	esque sand dunes front this area, with ample flats for develop-			
16	ment behind the dunes. The existing 25 camp sites and 50			
17	picnic sites are used heavily. Additional area should be pur-			
18	chased for suitable expansion and to avoid loss of opportunity			
19	for expansion due to subdivision activities.			
20	Is contained in the Approved Master Plan of Santa Cruz County			
21	as priority 18.			
22				
23	Seacliff Beach State Park-----	-	-	160,000
24	State Beach Fund:			
25	Budget Act of 1956 Proposal			
26	To acquire a very desirable beach now available extending south			
27	of the park and which is needed to expand developments for			
28	public use and which otherwise is subject to subdivision.			
29				
30	Colusa-Sacramento River State Park-- - - - -	-	-	50,000
31	State Park Fund:			
32	Budget Act of 1956 Proposal			
33	To acquire a typical portion of river frontage high in scenic values,			
34	strategically located at the head of navigation for cruisers on			
35	the upper Sacramento River. This will provide facilities and			
36	accommodations not now existent or adequate for the general			
37	public in an area which is not represented in the State Park			
38	System.			
39	The acquisition will further augment this park development and is			
40	in addition to that portion referred to on page 1231.			
41				
42	Pescadero Beach-----	-	-	75,000 ^a
43	State Beach Fund:			
44	Budget Act of 1956 Proposal			
45	This scenic beach and seacoast is an addition to county-owned			
46	beach now in process of transfer to state ownership.			
47	This beach area is needed to provide outdoor recreation to a por-			
48	tion of three to four million people residing within 100-mile			
49	radius of the area. Sufficient upland is included to provide			
50	parking, sanitary, picnicking and access facilities.			
51				
52	Natural Bridges Beach State Park-----	-	-	90,000
53	State Beach Fund:			
54	Budget Act of 1956 Proposal			
55	This acquisition will expand present holdings, to give area protec-			
56	tion and room for expansion of facilities for this small park,			
57	while surrounding lands are available. Subdivision activity has			
58	been intensified in the area. At present bottom lands and			
59	adjoining canyon sides, which fit naturally into the physical			
60	unit of the park topographically, are only in partial owner-			
61	ship. This results in operational enforcement, clean-up and			
62	sanitation problems. The existing area is such that little, if			
63	any, further expansion of facilities can be carried out without			
64	extreme expense.			
65	Is in approved county master plan.			
66				
67	George J. Hatfield State Park-----	-	-	50,000
68	State Park Fund:			
69	Budget Act of 1956 Proposal			
70	To provide for scenic protection along the Merced River opposite			
71	the present state park and to provide for the expansion of			
72	public use facilities, principally picnicking.			
73	Shady tree cover and natural scenic areas along the rivers of			
74	California-Central Valley are rapidly becoming lost to the			
75	public by clearing for agricultural use and by loss of access.			
76	The excellent oak grove across the river from the present			
77	holdings should be acquired while available. The use shows			
78	that the present park of 46 acres will not be large enough			
79	to meet the future demand.			
80				
81	* From Capital Outlay and Savings Fund unless otherwise indicated.			
82	^a Matching funds or lands anticipated.

3				
4	PROPOSED 1956-57 EXPENDITURES *—Continued			
5				
6	Los Angeles County Joshua Trees-----	-	-	\$250,000
7	State Park Fund:			
8	Budget Act of 1956 Proposal			
9	This project represents a unique and interesting type of California			
10	scene which at the present time is not represented elsewhere			
11	in the State Park System. The selection of a representative			
12	stand of Joshua trees, in conjunction with other features of the			
13	desert landscape and construction of standard park facilities,			
14	will provide an outstanding attraction and area for public use			
15	in a geographic area not presently included in the park system.			
16	The rapid expansion of subdivision activities in the Antelope Valley			
17	area, as well as in other sections of the Mojave Desert, have			
18	made serious inroads on Joshua tree stands, as they have been			
19	cleared for subdivision purposes. Commercial use of Joshua			
20	trees for insulation and other products has also aided in the			
21	destruction of this unique desert growth.			
22	Delay in the selection of an area for preservation will result in the			
23	destruction of natural values to the point that it would not be			
24	possible to find an undisturbed area of sufficient size in this			
25	region in the foreseeable future.			
26				
27	Del Norte Coast Redwoods State Park-----	-	-	50,000
28	State Beach Fund:			
29	Budget Act of 1956 Proposal			
30	To acquire privately-owned lands entirely surrounded by state park			
31	lands in order to preserve the area and eliminate administra-			
32	tive problems arising from lack of control of these areas.			
33	The beach frontage proposal is to extend the south boundary to its			
34	logical location as defined by natural features of the area. It			
35	will also provide area for limited facilities for public use.			
36				
37	Manchester Beach State Park-----	-	-	130,000
38	State Beach Fund:			
39	Budget Act of 1956 Proposal			
40	To provide public use facilities in an area where such facilities are			
41	not now available; the nearest publicly-owned ocean frontage			
42	being Van Damme Beach State Park, 28 miles to the north			
43	and Sonoma Coast State Park, 58 miles to the south. This will			
44	provide public access to four miles of beach, Alder and Brush			
45	Creeks and the Garcia River. The present park of 261 acres is			
46	not adaptable or large enough for development of public use			
47	facilities.			
48				
49	Ide Adobe State Historical Monument-----	-	-	50,000
50	State Park Fund:			
51	Budget Act of 1956 Proposal			
52	This historic property has been almost entirely surrounded by			
53	subdivision activities and very shortly the value of adjacent			
54	lands will make it economically unfeasible to consider expan-			
55	sion. The area is so restricted that no employee is able to			
56	live on the property and consequently the area is subject to			
57	vandalism when the park supervisor cannot be in attendance;			
58	consequently, additional areas are also for operational facili-			
59	ties. Encroachment of the modern structures surrounding the			
60	Old Adobe has detracted from effective display in a setting			
61	commensurate with its era.			
62	* From Capital Outlay and Savings Fund unless otherwise indicated.

5	REAL PROPERTY ACQUISITION—Continued			
6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Francis to Dunes Beach-----	-	-	\$450,000
10	State Beach Fund:			
11	Budget Act of 1956 Proposal			
12	To consolidate into public ownership privately-owned lands and			
13	ocean frontage lying between or adjacent to beaches that are			
14	in the process of being deeded to the State Park System.			
15	Sufficient area is included to provide space for development of park-			
16	ing, sanitary, picnicking, access, and other facilities desirable			
17	to provide shoreline recreation to a portion of a rapidly ex-			
18	panding population of three to four million people residing			
19	within reasonable driving distance.			
20	Areas in this proposal lie in the path of subdivision and commerical			
21	enterprise and, therefore, should be acquired before develop-			
22	ment makes acquisition cost prohibitive.			
23				
24	Mitchell Caverns State Park-----	-	-	30,000
25	State Park Fund:			
26	Budget Act of 1956 Proposal			
27	To add sufficient acreage to the present Mitchell Caverns State			
28	Park of 80 acres so that the park will also serve as a typical			
29	preserved example of the Mojave Desert, which is not now			
30	represented. Though other Mojave Desert Mountain ranges			
31	are taller, the addition of the portion of the Providence			
32	Mountains will preserve a good example of two of the five			
33	major vegetation zones of that region.			
34	For park purposes in desert areas, it is necessary to obtain suffi-			
35	cient area to preserve the scenery at greater distances from			
36	encroachments of incompatible developments which are in-			
37	creasing rapidly with the expanded interest in desert recrea-			
38	tion. Although of much interest geologically, the Providence			
39	Mountains have their greatest value from the standpoint of			
40	being typical of the northern Mojave.			
41				
42	Pacific Beach (Mission Bay State Park)-----	-	-	400,000
43	State Beach Fund:			
44	Budget Act of 1956 Proposal			
45	This acquisition will place additional upland areas in public			
46	ownership, assuring adequate access and parking facilities			
47	for maximum use of the existing state-owned beach.			
48				
49	Grover Hot Springs-----	-	-	100,000
50	State Park Fund:			
51	Budget Act of 1956 Proposal			
52	To provide recreational facilities in an area not represented in the			
53	State Park System. This project can provide for camping,			
54	picnicking, fishing, and swimming, as well as to preserve			
55	some outstanding Sierra meadowland. Recreational facilities			
56	in the area are not sufficient to meet the demand, nor are many			
57	areas as scenic as this project available for development.			
58				
59	Steele Beach-----	-	-	50,000 ^a
60	State Beach Fund:			
61	Budget Act of 1956 Proposal			
62	This acquisition will give frontage and upland which is scenic,			
63	suitable for development and provides excellent fishing. The			
64	sand dunes and marsh areas are an attractive example of this			
65	type of coastal terrain. The property is immediately opposite			
66	Ano Nuevo Island, with its early day lighthouse installation,			
67	for which negotiations have commenced. The area has arche-			
68	ological value in that in the early days the Indian population			
69	used the area heavily, because of the abundance of shellfish.

5	REAL PROPERTY ACQUISITION—Continued			
6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Alabama Hills -----	-	-	\$50,000
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	To preserve an area of high scenic value and great geologic interest.			
13	This range of hills is of old heavily jointed and eroded			
14	granite which predates the Sierra Nevadas.			
15	To provide facilities for outdoor recreation in an area that is not			
16	now represented in the State Park System, and where inade-			
17	quate public facilities exist to accommodate visitors to the			
18	Owens Valley and nearby Nevada Mountains.			
19				
20	Big Basin Redwoods State Park -----	-	-	500,000
21	State Park Fund:			
22	Budget Act of 1956 Proposal			
23	This acquisition will provide a corridor down Waddell Creek from			
24	the present park to the ocean. This includes a 2,347-acre			
25	ranch, from which all virgin timber has been removed, leaving			
26	second growth timber areas and bottom lands for development			
27	ideal for expanding facilities of this heavily used park. In			
28	1954, over 560,000 visitor days were spent in this park.			
29	This is an additional step in a proposed program to acquire the			
30	greatest portion of the Waddell Creek watershed, in order to			
31	preserve the natural scene and to provide area for major			
32	expansion of facilities as an access corridor to the ocean.			
33				
34	Miramontes Beach -----	-	-	75,000
35	State Beach Fund:			
36	Budget Act of 1956 Proposal			
37	To preserve a scenic coastline and beach. Sufficient upland is in-			
38	cluded to provide the necessary facilities for public use, such			
39	as parking and rest rooms, picnicking, roads, and trails.			
40	Since subdivision is already planned in part of this area, the land			
41	should be acquired before development makes the cost pro-			
42	hibitive.			
43				
44	Sonoma Mission State Historical Monument -----	-	-	150,000
45	State Park Fund:			
46	Budget Act of 1956 Proposal			
47	Recent archeological excavations indicate original mission build-			
48	ings extended beyond present holdings. The site of Casa			
49	Grande Adobe and Sonoma Barracks in the proposed Sonoma			
50	Mission Zone of Preservation, are of sufficient historical im-			
51	portance to be included in the State Monument System.			
52				
53	Point Sal State Park -----	-	-	100,000 ^a
54	State Beach Fund:			
55	Budget Act of 1956 Proposal			
56	To acquire 34,000 feet of scenic coastline adjoining Point Sal State			
57	Park. This is an isolated stretch of rocky coastline, with			
58	approximately 20 percent sandy beach. The beach is of medium			
59	width and is backed by quite abrupt cliffs. The tidal pools are			
60	extensive and are ideal for observation of marine life. The			
61	beach is not particularly suited for intensive recreation, as the			
62	coastal currents and surf conditions are severe and dangerous;			
63	however, there is an inland area suitable for camp develop-			
64	ment. The acquisition of this wild stretch of coastline, to be			
65	preserved primarily as a primitive scenic attraction, is ex-			
66	treemely desirable. The roughness of the terrain and its geo-			
67	graphic location is such that subdivision activity has not			
68	encroached, but the proximity of the area to Santa Maria will			
69	assure considerable use, as fishing is considered to be out-			
70	standing.			
71				
72	Donner Memorial State Park -----	-	-	150,000
73	State Park Fund:			
74	Budget Act of 1956 Proposal			
75	To preserve and retain in a natural state frontage on historic and			
76	picturesque Donner Lake, to include additional historic sites			
77	and to provide scenic protection across highway from the			
78	Donner Memorial Monument and main park entrance. The			
79	heavy influx of visitors, the expansion of commercial enter-			
80	prises and the development of summer homes is rapidly reduc-			
81	ing public access to Donner Lake and the scenic views from			
82	the highway.			
83				
84	* From Capital Outlay and Savings Fund unless otherwise indicated.			
85	^a Matching funds or lands anticipated.			
86

5	REAL PROPERTY ACQUISITION—Continued			
6	PROPOSED 1956-57 EXPENDITURES *—Continued			
7				
8	Pfeiffer Big Sur State Park-----	-	-	\$70,000
9	State Park Fund:			
10	Budget Act of 1956 Proposal			
11	To provide for the acquisition of privately owned lands within			
12	the park boundary which are an operational problem and to			
13	provide for protection at the park entrance from incompatible			
14	development and for the expansion of public use facilities,			
15	which are at present filled to capacity during the season. This			
16	project would also add valuable river frontage in an area			
17	where private development would prove detrimental to the			
18	park.			
19				
20	Bakers Beach State Park-----	-	-	30,000a
21	State Beach Fund:			
22	Budget Act of 1956 Proposal			
23	To expand existing park holdings in order to place the adjoining			
24	sandy beach in public ownership. From this area, magnificent			
25	views of the Golden Gate and the rocky headlands leading to			
26	the Gate are strikingly displayed. The water is sheltered			
27	enough to be used for swimming, but the primary use of the			
28	area will be sunbathing, and other beach activities.			
29				
30	Mt. Tamalpais State Park-----	-	-	100,000
31	State Park Fund:			
32	Budget Act of 1956 Proposal			
33	Rapid expansion of subdivisions in Marin County is endangering			
34	the scenic attraction of the mountain area. Land, to keep in			
35	a natural state the scenic areas of Mt. Tamalpais, including			
36	Steep Ravine Canyon, should be acquired before it is devel-			
37	oped and the cost becomes prohibitive. Land along the main			
38	entrance of the park is included in the program, as well as			
39	land to join a proposed Stinson Beach addition to provide			
40	access from mountain to ocean.			
41	This property will perpetuate public use of many scenic trails			
42	outside public-owned areas and provide for further expansion.			
43	Some other properties may be obtained under a use permit, which			
44	will provide for additional camp, picnic, and parking facilities.			
45				
46	Fort Humboldt State Historical Monument-----	-	-	150,000
47	State Park Fund:			
48	Budget Act of 1956 Proposal			
49	This acquisition at Fort Humboldt State Historical Monument,			
50	will prevent encroachment by subdivision. It will permit resto-			
51	ration and preservation of the natural scene overlooking Hum-			
52	boldt Bay, as it was when Fort Humboldt was one of the			
53	primary military installations on the northwest coast serving			
54	as a base for patrol activities to protect early settlers. This			
55	additional area will make it possible to enter into a restoration			
56	program for the fort, at some future date, and will provide a			
57	better setting.			
58				
59	Mt. Diablo State Park-----	-	-	200,000
60	State Park Fund:			
61	Budget Act of 1956 Proposal			
62	This acquisition will provide additional lands suitable for develop-			
63	ment in a general expansion of this extremely popular park.			
64	The present facilities are overloaded and terrain surrounding			
65	the existing facilities are not suitable for expansion.			
66				
67	D. L. Bliss State Park-----	-	-	75,000
68	State Park Fund:			
69	Budget Act of 1956 Proposal			
70	To provide for the expansion of public use facilities and bench			
71	frontage in a park where the present development of 118 camp-			
72	sites is receiving capacity use and where further development,			
73	including sanitary facilities, is impossible unless additional			
74	land is added to the park. Less than 2 percent of the frontage			
75	on Lake Tahoe is in public ownership and additional beach is			
76	necessary to accommodate the annual increase in day visitors			
77	as well as those camping.			
78				
79	* From Capital Outlay and Savings Fund unless otherwise indicated.			
80	a Matching funds or lands anticipated.

6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Henry Cowell Redwoods State Park-----	-	-	\$60,000
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	This acquisition involves several parcels and additional river front-			
13	age immediately adjacent and intruding into some portions of			
14	this park. Geographically these parcels fit into the park unit			
15	and their existence is hampering development and operations			
16	of this park, in that no controlled access road can be con-			
17	structed into the proposed campground without trespassing			
18	on the virgin grove.			
19				
20	Grizzly Creek Redwoods State Park-----	-	-	175,000
21	State Park Fund:			
22	Budget Act of 1956 Proposal			
23	To acquire lands adjacent to and across the Van Duzen River from			
24	a developed state park for scenic protection and to provide area			
25	for campground relocation and expansion of picnicking facil-			
26	ities. The present park has a small and much overused picnic			
27	area.			
28	The proposed acquisition will give scenic protection to a beautiful			
29	section of river and will give control needed to prevent erosion			
30	that is now taking place in the park. A timber screen across			
31	the river from present park area has been left by logging com-			
32	pany and should be purchased to eliminate possibilities of			
33	logging in the future. Acquisition of recommended area will			
34	also prevent intrusion of incompatible commercial enterprises			
35	near the developed park area.			
36				
37	Petaluma Adobe State Historical Monument-----	-	-	50,000
38	State Park Fund:			
39	Budget Act of 1956 Proposal			
40	To preserve the rural scene surrounding the historic adobe building			
41	and to provide proper setting for the buildings, also to prop-			
42	erly control traffic and encompass sites of other historical			
43	buildings. Additional land is needed to provide for visitor			
44	convenience including parking area.			
45	Subdivisions are expanding rapidly and the land must be acquired			
46	soon or be lost forever.			
47				
48	Sonoma Coast State Park-----	-	-	350,000
49	State Beach Fund:			
50	Budget Act of 1956 Proposal			
51	To provide public access to beaches, and the scenic and historic			
52	headlands of Bodega Bay. This area is in danger of being devel-			
53	oped into a residential area and lost to the public forever. It			
54	provides for the continuation of a program which has been long			
55	considered but incomplete.			
56	Increasing population of the north bay area as well as the interior,			
57	is creating a pressure on existing facilities and beaches, requir-			
58	ing that additional land be made available to the public. The			
59	project will provide a safe swimming beach as well as land			
60	for the expansion of picnicking and camping facilities.			
61				
62	MacKerricher Beach State Park-----	-	-	45,000
63	State Beach Fund:			
64	Budget Act of 1956 Proposal			
65	To acquire intervening parcels which prohibit a rational program			
66	for development and public use and to open up additional			
67	rocky coastline for public enjoyment which is rich in scenic			
68	and marine life values.			
69				
70	Oso Flaco Lake Beach-----	-	-	200,000
71	State Beach Fund:			
72	Budget Act of 1956 Proposal			
73	This acquisition will acquire a beautiful portion of coastline as			
74	well as Oso Flaco Lake, a fresh water lake, adjacent to the			
75	coast. Excellent clamming and surf fishing are found in this			
76	area and the beach is ideally suited to shoreline use of all			
77	types. Minimum developments will be required for many years			
78	to come. The most important is a circulation road to give the			
79	public general access to the beach.			

* From Capital Outlay and Savings Fund unless otherwise indicated.

4				
5	PROPOSED 1956-57 EXPENDITURES *—Continued			
6				
7	Silver Strand Beach State Park-----	-	-	\$48,000
8	<i>State Beach Fund:</i>			
9	<i>Budget Act of 1956 Proposal</i>			
10	This acquisition involves a parcel of land on the shores of San			
11	Diego Bay immediately south of existing park development.			
12	This parcel is very suitable for development for small craft,			
13	as well as general public use, and will enable a rearrangement			
14	of administrative facilities relieving congestion in the de-			
15	veloped area on the bay side. This will to some extent offset			
16	the loss of lands of this park to the Navy and consequently			
17	removed from public use.			
18				
19	Pio Pico State Historical Monument-----	-	-	60,000
20	<i>State Park Fund:</i>			
21	<i>Budget Act of 1956 Proposal</i>			
22	This acquisition involves several privately-owned lots and other			
23	land needed to better portray the Pio Pico State Historical			
24	Monument and its environment. Already hemmed in by inap-			
25	propriate structures, this significant historic structure requires			
26	protection from further encroachment and deserves the best			
27	possible display of its historic setting.			
28				
29	New Brighton Beach State Park-----	-	-	30,000
30	<i>State Beach Fund:</i>			
31	<i>Budget Act of 1956 Proposal</i>			
32	This acquisition will provide additional uplands extremely well-			
33	suited for development adjacent to this heavily used park.			
34	Present facilities are congested and overused and an extremely			
35	heavy turn-away rate exists. This is the only park in the			
36	immediate area, which is well-suited to overnight use. Ex-			
37	pansion of overnight facilities here will greatly aid the visiting			
38	public, who wish to camp near the beach, and will tend to			
39	relieve congestion in adjacent areas suitable for day use only.			
40				
41	Huntington Beach State Park-----	-	-	300,000
42	<i>State Beach Fund:</i>			
43	<i>Budget Act of 1956 Proposal</i>			
44	To acquire an upland area adjacent to this extremely popular, but			
45	congested beach park in Southern California. Last year this			
46	heavily developed beach park recorded 512,405 visitor days,			
47	which is a small percentage of what the beach can accom-			
48	modate, with the main limiting factor being the lack of park-			
49	ing. This is one of our most crucial problems with most of the			
50	beach parks. The acquisition of adjacent upland would supply			
51	room for adequate parking and other developments, such as			
52	picnicking, which will greatly increase the public value of this			
53	excellent recreation beach.			
54				
55	Dry Lagoon Beach-----	-	-	75,000
56	<i>State Beach Fund:</i>			
57	<i>Budget Act of 1956 Proposal</i>			
58	To acquire ocean and lagoon frontage adjacent to existing park			
59	lands and to eliminate privately-owned lands that have no			
60	access other than through the present park area and also to			
61	gain better control of the lagoons for public use.			
62	Upland is the only area suitable for adequate development of			
63	facilities for public use and is needed to adequately service the			
64	large number of people now visiting these areas.			
65				
66	Manresa Beach State Park-----	-	-	50,000
67	<i>State Beach Fund:</i>			
68	<i>Budget Act of 1956 Proposal</i>			
69	This acquisition will provide upland adjacent to existing holdings,			
70	enabling the construction of parking areas and other facilities,			
71	to give the public ready access to this section of the coastline			
72	to permit heavier use of the beach. Subdivision and agricul-			
73	tural activity is being intensified in this area and shortly costs			
74	will be a great deal higher than at present. Where access is			
75	available, this beach is heavily used for clamming, surf fishing,			
76	picnicking, and sunbathing.			
77				
78	Moonlight Beach State Park-----	-	-	100,000
79	<i>State Beach Fund:</i>			
80	<i>Budget Act of 1956 Proposal</i>			
81	This acquisition consists of various upland lots adjacent to the			
82	present park. Lack of parking area is hampering greatly the			
83	use of this portion of the beach. At present there are inade-			
84	quate upland parking facilities. Additional subdivision activity			
85	in the area will soon make expansion economically unfeasible.			
86

4	REAL PROPERTY ACQUISITION—Continued			
5				
6	PROPOSED 1956-57 EXPENDITURES *—Continued			
7				
8	Lime Kiln Creek Beach-----	-	-	\$100,000
9	State Beach Fund:			
10	Budget Act of 1956 Proposal			
11	The upland parcel along Lime Kiln Creek and its two tributaries			
12	contains fine stands of southern coastal redwoods beside the			
13	three live streams. A waterfall and cascades of much beauty			
14	lies within the upland parcel. Beaches within the area would			
15	lend themselves to establishment of camp and picnic areas			
16	without detracting from the outstanding rugged natural			
17	splendor of the area.			
18	The rough pebbly beach would provide much public recreation in			
19	the way of fishing or exploration of tidal pools.			
20				
21	Mecca Hills-----	-	-	75,000
22	State Park Fund:			
23	Budget Act of 1956 Proposal			
24	To create a park in the picturesque Box and Painted Canyon			
25	areas. This area has long been recognized and known for its			
26	outstanding scenery and geologic formations. Here erosion			
27	has cut vertical walled canyons over 100 feet deep through			
28	sandstone and other sedimentary rocks. The approaches to			
29	the area are through the picturesque Clay Hills, or Rosamond			
30	Formation, with its interesting colors and erosion patterns.			
31	The flora and fauna of the area are diverse and interesting and			
32	this particular portion of the desert scene is not at present			
33	represented in the park system.			
34				
35	Robert Louis Stevenson Memorial State Park-----	-	-	125,000
36	State Park Fund:			
37	Budget Act of 1956 Proposal			
38	This project will acquire lands suitable for development and pro-			
39	tect the natural scene in this extremely interesting and rugged			
40	mountainous area. To date little use has been made of this			
41	park since no development has been placed due to the unsuit-			
42	ability for development of the scenic terrain.			
43	This will also include the historical site of the old mining town of			
44	Silverado.			
45				
46	Benbow Lake State Park-----	-	-	250,000
47	State Park Fund:			
48	Budget Act of 1956 Proposal			
49	To acquire a lake of outstanding scenic charm in a forested valley			
50	on U. S. 101, 77 miles south of Eureka. Virgin redwoods and			
51	other rich forest cover, considerable open grassland and 6,400			
52	feet of lake and river frontage, as well as level lands for camp-			
53	ing and picnicking afford an unusual opportunity for aquatic			
54	recreation in the midst of the redwoods. Five miles north of			
55	Richardson Grove, this area would relieve some of the pressure			
56	on that over-popular park. The land at present is entirely			
57	in private ownership and public access could be curtailed at			
58	any time, or its beauty marred by adverse development.			
59				
60	Red Bank Creek-----	-	-	100,000
61	State Park Fund:			
62	Budget Act of 1956 Proposal			
63	To preserve a highly desirable wooded area at Red Bank Creek,			
64	along the shoreline of the upper Sacramento River, approxi-			
65	mately three miles south of Red Bluff and in conjunction			
66	with the proposed Red Bank Creek low level dam. This			
67	important recreational area on one of our principal rivers fills			
68	a gap in our system. Geographically this region is not presently			
69	represented other than in a limited way at the Historical Ide			
70	Adobe. Increasing population of the upper Sacramento Valley,			
71	as well as mounting tourist travel, makes the establishment of			
72	proper recreational facilities at this point of the utmost im-			
73	portance. Fishing, swimming, boating, scenic tours and pic-			
74	nicnicking would be the predominant uses of this area.			
75

8				
9	Feather Falls State Park-----	-	-	\$40,000
10	<i>State Park Fund:</i>			
11	<i>Budget Act of 1956 Proposal</i>			
12	This acquisition will reserve for public use the outstandingly beau-			
13	tiful Feather Falls on the South Fork of the Feather River.			
14	The ownership of the falls proper at the present time is in			
15	private hands and access is limited. These high falls are an			
16	outstanding feature in this entire region. Because of their			
17	present remoteness, they are inaccessible to the general public.			
18	The surrounding area is adapted to general recreation use,			
19	being ideally suited to riding, hiking, camping, and fishing.			
20	The proposed Oroville Dam will make the falls more accessible			
21	by utilizing water access and many more people will view them			
22	than is now possible.			
23				
24	Coe Ranch—Anderson Reservoir State Park-----	-	-	50,000
25	<i>State Park Fund:</i>			
26	<i>Budget Act of 1956 Proposal</i>			
27	These properties contain an outstanding example of a rather unique			
28	mountain region situated on the slopes of Mount Hamilton to			
29	the east of the Santa Clara Valley. The Anderson Dam is a			
30	fluctuating level reservoir established for water conservation			
31	purposes in the Santa Clara Valley which receives a very			
32	heavy recreational use. The Coe Ranch itself was deeded to			
33	the County of Santa Clara, and dedicated to be used by the			
34	people of the State of California, and may be gift-deeded to			
35	the State. The ranch and considerable surrounding government			
36	lands lie on the shoulders of Mount Hamilton in an area			
37	broken by stream courses running permanently through grassy			
38	flats and through oak and pine groves. Coyote Creek is the			
39	main drainage stream for the area, which descends into the			
40	water body behind the Anderson Dam. The geographical loca-			
41	tion of the area is such that the park system is not represented			
42	anywhere close by and the proximity of the rapidly expanding			
43	metropolitan area will assure heavy use.			
44				
45	Portola State Park-----	-	-	175,000
46	<i>State Park Fund:</i>			
47	<i>Budget Act of 1956 Proposal</i>			
48	This proposal deals with several parcels jutting into the existing			
49	state park or immediately adjacent to the boundaries. Because			
50	of logging activities nearby and the possibility of logging on			
51	these privately-owned parcels, it is necessary to acquire them			
52	to give adequate scenic, watershed and fire protection to the			
53	park. The acquisition of these parcels will give added room for			
54	campground and picnic expansion and will remove many			
55	operational hazards and difficulties.			
56				
57	Richardson Grove State Park-----	-	-	40,000
58	<i>State Park Fund:</i>			
59	<i>Budget Act of 1956 Proposal</i>			
60	To provide 40 acres of land for further development, and adjoins			
61	the Toumey Grove section on the northwest end, being adja-			
62	cent to the South Fork of the Eel River; to relieve present			
63	pressure in the existing 150 camp units and to alleviate ex-			
64	cessive destruction of ground cover in the virgin grove of			
65	coast redwoods.			
66				
67	San Juan Bautista State Historical Monument-----	-	-	20,000
68	<i>State Park Fund:</i>			
69	<i>Budget Act of 1956 Proposal</i>			
70	This acquisition will supply badly needed parking space and much			
71	firmer administrative control to this historic monument. Mod-			
72	ern buildings intruding on the historic scene can be removed,			
73	as can the presence of automobiles in the plaza by the addi-			
74	tion of existing parcels, suitable parking and planting. At least			
75	one structure on the suggested parcels is of the correct age			
76	and in such condition to remain as the monument office, which			
77	would remove routine administrative work from an historic			
78	structure, which is not desirable for the most effective display			
79	of any monument.			
80				
81	* From Capital Outlay and Savings Fund unless otherwise indicated.			
82				
83

6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Shasta State Historical Monument	-	-	\$75,000
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	To acquire additional city lots and historic sites throughout the			
13	Old Town of Shasta. Some additional acreage is desirable to			
14	assure the perpetuation of the authentic scene for the most			
15	effective display of this old mining area.			
16				
17	Montgomery Memorial State Historical Monument	-	-	15,000
18	State Park Fund:			
19	Budget Act of 1956 Proposal			
20	This acquisition will enlarge the existing Montgomery Memorial			
21	property which commemorates the site of early day gliding			
22	experiments in 1883. This was the scene of the first successful			
23	flight by man. At the present time subdivision activity is			
24	encroaching on the area to such an extent that without			
25	enlargement proper display is impossible.			
26				
27	McArthur-Burney Falls State Park	-	-	20,000
28	State Park Fund:			
29	Budget Act of 1956 Proposal			
30	This acquisition will assure perpetuation of the rising spring area			
31	where Burney Creek originates a short distance above the			
32	existing park property. At present improper use of this area			
33	could divert some stream flow or could introduce pollution into			
34	the stream, either of which would be detrimental to the display			
35	and effect of the falls, fishing, and general public use of the			
36	area. As the falls are the focal point of this park, the water			
37	source must be protected.			
38				
39	Fremont Peak State Park	-	-	10,000
40	State Park Fund:			
41	Budget Act of 1956 Proposal			
42	This acquisition will secure full ownership of the existing road to			
43	Fremont Peak, a portion of which is at present outside of the			
44	park boundaries. Other parcels of land suitable for expansion			
45	of facilities now intrude into the park causing some opera-			
46	tional difficulties, as well as increased fire hazard. Acquisition			
47	of these parcels will enable expansion of facilities in this park,			
48	which is impossible at present due to lack of suitable terrain.			
49				
50	Vallejo Home State Historical Monument	-	-	50,000
51	State Park Fund:			
52	Budget Act of 1956 Proposal			
53	To preserve and perpetuate the Vallejo Home Barn and Cemetery,			
54	which are a part of the story and picture of Vallejo's home			
55	and to provide an adequate buffer or protective zone. Expansion			
56	of the residential district of the City of Sonoma are			
57	gradually encroaching upon the home setting and, if continued,			
58	could seriously impair the interpretation of this period of			
59	California history.			
60				
61	Samuel P. Taylor State Park	-	-	40,000
62	State Park Fund:			
63	Budget Act of 1956 Proposal			
64	Acquisition of this area will greatly aid in eliminating administra-			
65	tive and operational problems now existing in the park. It will			
66	also add a very desirable scenic strip to the park and permit			
67	the development of an adequate trail system, including a			
68	portion of the state-wide riding and hiking trails.			
69				
70	Los Encinos State Historical Monument	-	-	30,000
71	State Park Fund:			
72	Budget Act of 1956 Proposal			
73	This acquisition is to complete the historic and operational scene			
74	of this state monument. At present a private ownership			
75	suitable for commercial development intrudes into the property			
76	and contains a portion of Lake El Encino, one of the most			
77	notable features of the monument. Acquisition of this parcel			
78	will assure proper display, will enable a rearrangement of			
79	landscaping, paths and roadways, making it possible to display			
80	the monument to its best advantage and give full control of			
81	the lake.			
82				
83	* From Capital Outlay and Savings Fund unless otherwise indicated.

5	REAL PROPERTY ACQUISITION—Continued			
6				
7	PROPOSED 1956-57 EXPENDITURES *—Continued			
8				
9	Palomar Mountain State Park-----	-	-	\$75,000
10	State Park Fund:			
11	Budget Act of 1956 Proposal			
12	This acquisition will remove many operational and administrative			
13	problems by removing intruding parcels from existing park			
14	boundaries. In some instances these parcels are suitable for			
15	private development. Should they be developed, the result			
16	would be disastrous to the natural scene and would create			
17	many administrative problems. The straightening of the bound-			
18	ary of the park will aid immensely in the control of livestock			
19	now grazing on adjacent lands.			
20				
21	Ellwood Beach-----	-	-	120,000
22	State Beach Fund:			
23	Budget Act of 1956 Proposal			
24	To acquire while available a section of coastline 12 miles west of			
25	Santa Barbara. This area consists of low coastal bluffs over-			
26	looking an excellent though narrow sandy beach. The protec-			
27	tion afforded this beach by the bluff makes it extremely well-			
28	suited to swimming. This area will have sufficient upland to			
29	place facilities for overnight use and will supplement existing			
30	facilities which are overcrowded.			
31				
32	Placerita Canyon State Park-----	-	-	20,000
33	State Park Fund:			
34	Budget Act of 1956 Proposal			
35	To enlarge this area commemorating the discovery of gold in			
36	Southern California. At present the acreage is not sufficient to			
37	give adequate protection nor does it contain the Oak of the			
38	Golden Dream, which is an important part of the natural scene			
39	and also plays a part in the historic events, which took place			
40	in this area. This additional acreage will assure the more			
41	proper display and retention of the native scene at this			
42	state park.			
43				
44	San Simeon Beach-----	-	-	200,000
45	State Beach Fund:			
46	Budget Act of 1956 Proposal			
47	This acquisition will place in public ownership an extensive strip			
48	of rather narrow sandy beach situated between Highway 1			
49	and the Pacific Ocean in the vicinity of San Simeon. This			
50	beach is extremely well-suited to picnicking, sunbathing, fish-			
51	ing and some swimming, although it is not outstanding as a			
52	swimming beach. Scenically it is extremely important as an			
53	example of California coastline to be viewed by persons travel-			
54	ing State Highway 1.			
55				
56	Less acquisitions to be completed in subsequent fiscal years.-----	-	-	—18,106,045
57				
58	ESTIMATED 1954-55 AND 1955-56 EXPENDITURES *			
59				
60	Acquisition of Additional Parcels of Land—			
61	Establishment of New State Park Areas:

10	State Beaches—Continued			
11	Pismo:			
12	Lagoon dredging -----	-	-	\$50,000
13	Camp units (5) -----	-	-	1,250
14	Gas system -----	-	-	8,000
15	Roads -----	-	-	15,000
16	State Beach Fund:			
17	Budget Act of 1956 Proposal			
18	It is proposed to remove dead and decayed swamp vegetation and			
19	undergrowth from the lagoon and fill dredged material in the			
20	picnic area to make available suitable facilities for park use			
21	and provide additional area for development as a public			
22	picnic grounds. To complete development in an already			
23	established campground, providing space which will help			
24	relieve the present overcrowded conditions. Gas system will			
25	provide up-to-date facilities and eliminate high cost of indi-			
26	vidual services at each unit. Road repair essential to repair			
27	disintegration caused by high water table and reduce exces-			
28	sive maintenance cost.			
29				
30	San Buenaventura:			
31	Roads and parking areas -----	-	-	48,810
32	Relocate residences (4) and garages -----	-	-	28,000
33	Office building -----	-	-	8,000
34	State Beach Fund:			
35	Budget Act of 1956 Proposal			
36	Development and improvement of this beach area is essential			
37	because of its increased popularity and use. Relocation of			
38	permanent park residence buildings to an established resi-			
39	dence area is part of a park master plan brought about by			
40	the new Ventura freeway.			
41				
42	Santa Monica:			
43	Harbor dredging -----	-	-	300,000
44	State Beach Fund:			
45	Budget Act of 1956 Proposal			
46	The dredging of the harbor will permit greater use by boats and			
47	will provide sand for the down coast beach which has been			
48	depleted of sand in recent years.			
49				
50	Seacliff:			
51	Pier repair and addition -----	-	-	18,500
52	Concession building -----	-	-	6,000
53	Parking area -----	-	-	10,000
54	Comfort station with dressing rooms -----	-	-	12,500
55	Aptos Creek bridge—plans -----	-	-	3,000
56	State Beach Fund:			
57	Budget Act of 1956 Proposal			
58	All of the pier except the concession end has been repaired. The			
59	existing concession building is a poorly constructed build-			
60	ing which does not merit remodeling or repairing. The ad-			
61	ditional piling and deck would support the proposed con-			
62	cession building and permit full use of the pier. The Aptos			
63	Creek bridge study and design is for a bridge to connect the			
64	two portions of the park.			
65				
66	Silver Strand:			
67	Comfort stations (3) with dressing rooms -----	-	-	45,000
68	Comfort station and lifeguard center -----	-	-	15,000

22	Water storage tank-----	-	-	3,000
23	Power line extension-----	-	-	3,000
24	State Beach Fund:			
25	Budget Act of 1956 Proposal			
26	This project provides for improving facilities at the existing			
27	developed area as well as on the presently undeveloped			
28	beach.			
29				
30	Thornton:			
31	Comfort stations (2)-----	-	-	16,000
32	Roads and parking areas-----	-	-	20,000
33	Fence-----	-	-	10,400
34	Water distribution line-----	-	-	3,500
35	Beach access ramps-----	-	-	8,000
36	Erosion control-----	-	-	4,000
37	State Beach Fund:			
38	Budget Act of 1956 Proposal			
39	This is a recently acquired park in which there are no existing			
40	developments.			
41				
42	Tomales Bay:			
43	Comfort station-----	-	-	7,000
44	Office and contact building-----	-	-	7,000
45	Utility building-----	-	-	7,500
46	Picnic units (25)-----	-	-	4,190
47	Service yard-----	-	-	4,000
48	Roads and parking areas-----	-	-	60,000
49	Water system-----	-	-	20,000
50	State Park Fund:			
51	Budget Act of 1956 Proposal			
52	This project will provide additional picnic facilities in a new			
53	area together with increased parking for beach use. There			
54	are no existing office and contact facilities or utility areas			
55	as this is but the second stage of development of a new park.			
56				
57	Van Damme:			
58	Camp units (20)-----	-	-	4,000
59	Combination building-----	-	-	12,000
60	Power system-----	-	-	2,500
61	Water system-----	-	-	7,000
62	Roads and parking-----	-	-	13,000
63	State Beach Fund:			
64	Budget Act of 1956 Proposal			
65	The existing camp units receive constant capacity use. A newly			
66	acquired area will be developed to alleviate this condition.

56	Water line extension-----	-	-	1,250
57	Power line extension-----	-	-	1,000
58	Grade and fill beach-----	-	-	2,000
59	Landscaping-----	-	-	2,000
60	State Park Fund:			
61	Budget Act of 1956 Proposal			
62	Additional camp and picnic units will provide expansion for			
63	existing over-crowded facilities. The utility building and			
64	service yard are required for normal park maintenance			
65	activities. This proposal will also provide surfacing for			
66	existing unsurfaced roads, parking for 450 cars, and facil-			
67	ities for boating, picnicking, and camping. Existing camping			
68	facilities have received capacity use.

11	Henry Cowell Redwoods:			
12	Comfort stations (2)-----	-	-	16,000
13	Roads and parking areas-----	-	-	32,600
14	Water system-----	-	-	40,000
15	State Park Fund:			
16	Budget Act of 1956 Proposal			
17	This project is for initial development of the park. Installation			
18	of an adequate water system is essential; parking, sanitary			
19	facilities are the first step in providing facilities for the			
20	public.			
21				
22	Humboldt Redwoods:			
23	Dyerville—Bull Creek:			
24	Road improvement-----	-	-	150,000
25	Williams Grove:			
26	Picnic units (30)-----	-	-	6,000
27	Road and parking areas-----	-	-	10,000
28	Water line and tank-----	-	-	10,000
29	Comfort station-----	-	-	7,000
30	State Park Fund:			
31	Budget Act of 1956 Proposal			
32	The present practice of picnicking along the highway wherever			
33	space for a car is available has created a serious hazard for			
34	highway travelers. This project will also provide for picnic			
35	units off the highway.			
36				
37	Lake Natoma:			
38	Comfort stations (2)-----	-	-	24,000
39	Boat ramp-----	-	-	10,000

9	La Purisima Mission:			
10	Restoration of cooking area and utility building-----	-	-	\$10,500
11	State Park Fund:			
12	Budget Act of 1956 Proposal			
13	The cooking area was an important facility to mission life. The			
14	utility building was used for storing and preparing food and			
15	most cooking was in the outdoor ovens, fireplaces, or cooking			
16	places. Locations of these facilities have been established			
17	and reconstruction of each to authentic appearance will			
18	help complete the continuing program of restoration neces-			
19	sary in suitable interpretation and presentation of the mis-			
20	sion history.			
21				
22	Monterey Monuments:			
23	Casa Del Oro restoration-----	-	-	16,000
24	Pacific Building restoration-----	-	-	20,000
25	State Park Fund:			
26	Budget Act of 1956 Proposal			
27	It is proposed to continue reconstruction of the historic Casa			
28	Del Oro to period of the 1850's. Gift deed requires that this			
29	building be open to public visitors. Since it is in the Custom			
30	House Zone of Preservation, it will help to complete planned			
31	preservation and historical interpretation in the area.			
32	The Pacific Building is one of the original structures. It is within			
33	the Custom House Zone of Preservation and will help to			
34	complete plans for preservation and interpretation in this			
35	area. To make available to public, planned operations			
36	would consist of returning building to original appearance			
37	by removal of modern and extraneous improvements and			
38	establishing as a historical museum for purposes of preser-			
39	vation and historical interpretation.			
40				
41	Morro Bay:			
42	Sewage system-----	-	-	30,000
43	Boat slips, launching ramp, and parking area-----	-	-	59,000
44	State Park Fund:			
45	Budget Act of 1956 Proposal			
46	Some additional installations are required to improve the boat			
47	basin operations, enabling best and most beneficial use of			
48	the area, and providing protection for the original invest-			
49	ment in this area.			
50	Park is now served by individual septic tanks and leaching fields			
51	which are located at tide level making them unusable dur-			
52	ing periods of high tides. Constant maintenance is required			
53	and unhealthy conditions promoted within the park.			
54				
55	Mt. Diablo:			
56	Road improvement and parking areas-----	-	-	102,000
57	State Park Fund:			
58	Budget Act of 1956 Proposal			
59	Old inadequate surface has almost completely disintegrated. This			
60	is the last portion of the road improvement program to be			
61	budgeted. The three parking areas will relieve over-crowding			
62	now prevalent.			
63				
64	Mt. Tamalpais:			
65	Road improvement-----	-	-	60,000
66	State Park Fund:			
67	Budget Act of 1956 Proposal			
68	The surface on Ridgecrest road in this park has deteriorated to			
69	such an extent that resurfacing is the only method of bring-			
70	ing the road up to good usable condition.			
71				
72	Pfeiffer-Big Sur:			
73	Combination building-----	-	-	11,500
74	Water system-----	-	-	4,000
75	Power line-----	-	-	3,000
76	Camp units (40)-----	-	-	10,000
77	Comfort station-----	-	-	7,500
78	Roads and parking areas-----	-	-	32,500
79	State Park Fund:			
80	Budget Act of 1956 Proposal			
81	It is proposed to develop a new area to link existing camp-			
82	grounds and diminish overcrowding of other facilities of this			
83	park and of other public facilities in the vicinity.			
84				
85	* From Capital Outlay and Savings Fund unless otherwise indicated.

21	State Park Fund:			
22	Budget Act of 1956 Proposal			
23	Present lodge and concession buildings are relics of an early			
24	roadside business which has been added to but not improved.			
25	Increasing use of this facility has made it, in some instances,			
26	dangerous and unsanitary. Concessionaire does not have suf-			
27	ficient space to provide for employees necessary to operate			
28	during the season. The public facilities are inadequate and			
29	in bad repair.			
30				
31	Salton Sea:			
32	Combination building-----	-	-	12,000
33	Comfort station-----	-	-	7,000
34	Lifeguard tower-----	-	-	500
35	Camp units (50)-----	-	-	12,500
36	Boat ramp-----	-	-	6,000
37	Roads and parking areas-----	-	-	27,000
38	Water system-----	-	-	11,200
39	Gas supply-----	-	-	10,000
40	Power extension-----	-	-	7,650
41	State Park Fund:			
42	Budget Act of 1956 Proposal			
43	The small initial development opened for the first time for the			
44	1955 season received tremendous use. This project is part of			
45	a planned construction program to increase facilities for			
46	boating, parking, and camping.			
47				
48	San Juan Bautista Historical Monument:			
49	Termite control-----	-	-	5,000
50	Restoration of Castro House-----	-	-	12,000
51	Restoration of plaza stable-----	-	-	8,000
52	State Park Fund:			
53	Budget Act of 1956 Proposal			
54	Restoration and repair of these early California structures is			
55	a vital part of the historical program at this monument.			
56				
57	Tule Elk Reserve:			
58	Picnic units (25)-----	-	-	3,750
59	Comfort station-----	-	-	6,000
60	Residence and garage-----	-	-	16,000
61	Utility building and service area-----	-	-	12,000
62	Water system-----	-	-	2,800
63	Roads and parking areas-----	-	-	24,300
64	Fence-----	-	-	6,000
65	Power system-----	-	-	500
66	Bridge reconstruction-----	-	-	17,000
67	State Park Fund:			
68	Budget Act of 1956 Proposal			
69	No facilities have been provided for public use. This request			
70	covers an initial development which includes picnic facili-			
71	ties and public observation areas where elk and water-			
72	fowl may be viewed and studied in natural surroundings.

4				
5	RIDERS' AND HIKERS' TRAILS			
6				
7	Analysis			
8				
9	The Riding and Hiking Trail, authorized by Chapter 112, Statutes of 1946, was to be a 3,000-mile state-wide loop. This was later			
10	amended to authorize secondary trails after completion of the state-wide loop. Chapter 1536, Statutes of 1955, authorized			
11	lateral trails concurrently with the state-wide loop to accelerate the program and provide for more effective use of the 650			
12	miles of trail completed as of July 1, 1955.

8	PROPOSED 1956-57 EXPENDITURES *			
9	Historic Ships -----	-	-	\$200,000
10	State Beach Fund:			
11	Budget Act of 1956 Proposal			
12	Because of the part played by early day sailing and steam schooners			
13	in early development of California, it is fitting that they			
14	should become a part of the State Monument System and be			
15	preserved for future generations. This proposal would provide			
16	for the purchase, moving, and rehabilitation of the steam			
17	schooner "Tongass" and either the three-masted schooner			
18	"C. A. Thayer" or "Wanona," which, if acquired, are in-			
19	tended to be displayed by the San Francisco Maritime Museum			
20	through agreement with the State Park Commission.

1				
2				
3				
4				
5	GENERAL ANALYSIS			
6				
7	The proposed capital outlay program for the 1956-57 Fiscal Year includes the acquisition of a site for a fire control station in San			
8	Diego County, sites for the construction of district headquarters installations at Fresno and Monterey to replace inadequate,			
9	leased quarters, and the continuation of the program of acquiring title to fire suppression station and lookout sites now occupied			
10	under ground leases or easements.			
11	Funds are proposed for the construction of a District Headquarters office and auxiliary buildings at Fresno where present quarters			
12	are now leased. Provision has also been made for the construction of two additional 80-man forestry work camps for inmates of			
13	the Department of Corrections. In addition, the budget proposes the construction of barracks and mess hall facilities at five fire			
14	suppression stations, a vehicle and equipment storage building for the District II headquarters at Redding, plus engineering,			
15	planning, and construction inspection expenses.			
16

		54-55 (Filled)	55-56 (Auth.)	56-57 (Auth.)			
1	GENERAL ANALYSIS						
2							
3							
4	The California Olympic Commission was established by Chapter 124, Statutes of 1955, which became effective in 1955 with the award						
5	of the 1960 winter Olympic games to California by the International Olympic Committee. The commission is composed of five						
6	members appointed by the Governor and the duties of the commission are to encourage and assist participation in the games by						
7	persons from all parts of the world, to provide facilities for the games, to represent the State in matters relating to the holding						
8	and staging of the 1960 winter Olympics and to cooperate with the Government of the United States and others, and to engage						
9	in such activities as may be necessary or desirable to make the 1960 winter Olympic games in California a success. During the						
10	current fiscal year the commission employed the services of an architectural engineering firm to prepare a report on the physical						
11	facilities required for the holding of the games and contracted with the Organizing Committee for the 1960 Winter Olympic						
12	Games for assistance to the commission. At the present time the staff of the commission consists of an executive secretary and a						
13	stenographer.

¹ Increases or decreases to reflect adjustment in accordance with foreseeable expenditure programs.

² Decrease represents savings due to maintenance and operation of San Francisco Bay Bridge becoming payable from toll revenues effective December 1, 1955.

³ Decrease represents savings and advance of projects to prior fiscal year, a supplemental schedule covering revisions in individual major construction projects follows.

⁴ Increase due to application of the additional revenues from tax sources, reimbursement for Bay Bridge maintenance and operation and transfer of resources from prior budgets.

⁵ Increases due to inclusion of unexpended balance for prior years work in current budget.

¹ Variation between estimated and actual expenditures for these items are normal and do not reflect any change in program.

² A supplemental schedule detailing differences in estimated and actual expenditures for major construction projects follows. Major cause of increase occasioned by increased revenue.

³ It has not been possible to fully expend the remaining balance of funds made available by Section 203 of the Streets and Highways Code because plans for the work have not all been approved by the cities.

⁴ Provision for equipment combined with Land and Buildings last year and variation in total nets to a decrease due to plans for buildings not developing as rapidly as anticipated.

REASONS FOR REVISIONS

¹ Savings—funds in excess of budget requirements.

² Project deferred to subsequent fiscal year.

³ Decrease due to change in scope of work.

⁴ Decrease, project or portion of project financed from other funds.

⁵ Additional project to stabilize slide area or remove underground water.

⁶ Additional project to improve traffic safety.

⁷ Additional funds and scope of work increased by addition of deferred work from prior budget.

⁸ Additional funds required because of low budget estimate.

⁹ Additional funds required because of revision of design standards or scope of work.

¹⁰ Additional project to improve deficient roadway or structure.

¹¹ Additional project to alleviate hazardous traffic conditions.

¹² Additional project to improve drainage.

¹³ Additional project to install or revise traffic regulatory or safety devices.

¹⁴ Additional project to preserve roadway metal and provide traffic service.

¹⁵ Additional project to improve traffic service.

¹⁶ Additional project, deferred from prior fiscal year.

¹⁷ Additional project to surface highways constructed by honor camp forces.

¹⁸ Additional project to relieve traffic congestion.

¹⁹ Additional project to provide improved traffic weighing facilities.

²⁰ Additional project to replace a deteriorated or destroyed structure.

²¹ Additional project to repair a deteriorated structure or roadway.

²² Additional project to improve a low standard road (requested by county to use federal-aid secondary funds).

²³ Additional project to provide for erosion control or roadside delineation.

²⁴ Additional project to place seal coats or resurface existing pavements.

REASONS FOR REVISIONS

¹ Savings, funds in excess of budget requirements.

² Project or portion of project financed from other funds.

³ Project or portion of project deferred for future budgeting.

⁴ Project or portion of project advanced to prior fiscal year.

⁵ Project work in excess of budget funds.

⁶ To correct failure caused by subsurface water.

⁷ To install truck weighing facilities requested by the highway patrol for enforcement of weight laws.

⁸ Project advanced from subsequent fiscal year budget.

⁹ To improve shoulders.

¹⁰ To improve or replace deficient roadway.

¹¹ To improve or replace deficient structure.

¹² To improve drainage.

¹³ To control and restore erosion damage.

¹⁴ To improve conditions for traffic.

¹⁵ To alleviate hazardous conditions.

¹⁶ To resurface or seal existing pavements.

¹⁷ Roadside development for fire, erosion and weed control, or for roadway screening and delineation.

¹⁸ To expedite maintenance operations.

¹⁹ To correct slide and slipout failures.

²⁰ To realign road in Feather River Canyon for power developments.

²¹ To restore deteriorated or destroyed roadway facilities.

²² To acquire a materials source for highway construction.

²³ To provide for orderly continuation of construction on freeway projects.

²⁴ To provide an adequate highway facility.

²⁵ Rebudget project, deferred in prior fiscal year.

²⁶ To account delayed credit from prior budget project.

²⁷ To comply with a municipal agreement.

DIVISION OF HIGHWAYS—Continued

Statement No. 6—Comparison of Revised Revenue Estimates for the 1955-56 Fiscal Year With Budget Estimates Submitted to the 1955 Session of the Legislature

LINE	ESTIMATED REVENUES AND RECEIPTS	1955-56 BUDGET 1955 SESSION	REVISED ESTIMATES	DIFFERENCES
1	STATE HIGHWAY FUND			
2	State Funds:			
3	Franchise tax-toll ferries-----	\$600	\$600	—
4	Outdoor advertising fees, permits, etc.-----	77,600	77,600	—
5	Apportionments from state revenues collected by other agencies	267,334,650	286,744,092	\$19,409,442 ¹
6	Reimbursement for maintenance and operation of San Francisco-			
7	Oakland Bay Bridge—Sections 30605 and 30607, Streets			
8	and Highways Code-----	—	6,500,000	6,500,000 ²
9	Martinez-Benicia ferry tolls-----	200,000	6,300	—193,700 ³
10	Investment earnings-----	500,000	850,000	350,000 ⁴
11				
12	Totals, State Funds-----	\$268,112,850	\$294,178,592	\$26,065,742
13	Federal and Other Funds:			
14	Federal Aid Subventions:			
15	For state highways-----	\$40,577,000	\$40,648,448	\$71,448
16	For county highways-----	6,530,000	6,459,589	—70,411
17				
18	Totals, Federal Aid Subventions-----	\$47,107,000	\$47,108,037	\$1,037
19	Federal Government Reimbursements:			
20	For access highways-----	—	9,451	9,451
21				
22	Totals, Federal Funds-----	\$47,107,000	\$47,117,488	\$10,488 ⁵
23	Contributions:			
24	For state highways-----	—	\$1,757,758	\$1,757,758
25	For county highways-----	—	688,230	688,230
26				
27	Totals, Contributions-----	—	\$2,445,988	\$2,445,988 ⁶
28				
29	Totals, Federal and Other Funds-----	\$47,107,000	\$49,563,476	\$2,456,476
30				
31	TOTAL REVENUES -----	\$315,219,850	\$343,742,068	\$28,522,218

¹ Increase due to greater motor vehicle registration than anticipated with a resulting increase in gasoline consumption.

² Code sections cited became operative December 1, 1955, upon retirement of bonded indebtedness on Bay Bridge.

³ Reduction reflects loss of ferry boat due to condemnation by Coast Guard.

⁴ Increase due to retention of securities longer than originally anticipated.

⁵ Revisions in federal aid adjust original estimates to actual apportionments.

⁶ Represents revenue from contributions which cannot be estimated in advance and which is taken into budget as projects concerned are placed under work order.

RECLAMATION BOARD

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
1				
2	Through this board, the State cooperates with the Federal Government in the construction of flood control projects in the Sacramento-			
3	San Joaquin River drainage basin. The extent of state participation is determined by the several acts adopting and approving			
4	specific projects and for which appropriations to meet the State's costs are made as necessary. Generally such participation consists			
5	of the acquisition of rights of way, easements, flowage rights, and the cost of replacement or relocation of permanent im-			
6	provements necessitated by the construction of the flood control works.			
7	The 1956-57 Budget proposes that the Sacramento River Flood Control Project and the San Joaquin River Flood Control Project			
8	continue at an increased rate to meet the State's responsibility in the program, based upon projects to be undertaken by the			
9	Federal Government during this period.

Acquisition of Central Valley Project							
FLOOD CONTROL AND WATER CONSERVATION PROGRAM—Continued							
ESTIMATED 1954-55 AND 1955-56 EXPENDITURES *							
Analysis							
Funds were provided by Item 428.5, Budget Act of 1952, for studies and surveys, preliminary to the possible operation and purchase of the Central Valley Project by the State. The balance of the appropriations after financing preliminary work was made available for the initial installment of any purchase agreement negotiated. The funds appropriated by Item 428.5, Budget Act of 1952, were available to July 15, 1955, and the remaining balance has reverted to the General Fund.

UNALLOCATED FUNDS FOR PRELIMINARY PLANS, INCREASED COST OF CONSTRUCTION AND MISCELLANEOUS REPAIRS AND IMPROVEMENTS

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
1				
2	Analysis			
3				
4	Lump sum appropriations have been provided from which allocations to agencies are made as needed. The expenditures from such allo-			
5	cations are included in the individual agency budgets. That part which has not been allocated but which is estimated to be needed			
6	for further allocations, is included here as an expenditure.			
7	Funds for preparation of complete preliminary plans are proposed to continue the presently authorized procedures for securing sound			
8	cost estimates for subsequently budgeted projects.			
9	Expenditures from available appropriation are estimated for allocation to state agencies upon approval of the State Public Works			
10	Board as prescribed by law for increased cost of construction when the lowest bid on a project is in excess of the available funds			
11	for such project. Savings from completed projects are transferred to this fund and are available by law for such allocations. The			
12	expenditure estimate anticipates a cost increase for construction projects.			
13	Funds are proposed for miscellaneous repairs and improvements to be allocated to agencies upon subsequent determination of require-			
14	ments.			
15

FOR PUBLIC HEALTH:

- Assistance to Local Health Departments
- Assistance to Counties Without Local Health Departments
- Assistance to Counties for Tuberculosis Sanatoria
- Assistance to Counties for Care of Crippled Children
- Assistance to School Districts for the Treatment of Cerebral Palsied Children
- Assistance to Local Agencies for Mosquito Control
- Assistance to Local and Nonprofit Agencies for Hospital Construction

FOR PUBLIC WORKS:

- Local Roads and Highways
- Flood Control
- Sacramento Deep Water Channel
- Postwar Public Works
- Redondo Beach Sea Wall
- Grade Crossing Protection Works
- Storm and Flood Damage Repair
- Earthquake Damage Repair
- Veterans Housing

FOR SOCIAL WELFARE:

- Old Age Security
- Aid to the Needy Blind
- Aid to Partially Self-supporting Blind
- Aid for Institutional Care of Needy Aged and Blind
- Aid to Needy Children
- County Administration of Assistance Programs
- Local Inspection of Homes and Agencies Caring for Aged and Children
- Reimbursements to Counties for Administration and Cost of Care of Adoptions
- County Administration of Child Welfare Services
- Transportation of Needy Children

FOR OTHER PURPOSES:

- Salaries of Superior Court Judges
- Contributions to Judges' Retirement Fund
- County Veterans Service Officers
- County Agricultural Commissioners
- Workmen's Compensation for Civil Defense Workers
- Assistance to Counties for Juvenile Homes and Camps
- Assistance to County Agricultural and Citrus Fairs

SHARED REVENUES

FOR GENERAL GOVERNMENT:

- Apportionment of Liquor License Fees
- Apportionment of Motor Vehicle License Fees (in lieu tax)

APPORTIONMENT OF FEDERAL RECEIPTS:

- Flood Control Lands
- Forest Reserves
- Grazing Lands
- Potash Lease Rentals

FOR COUNTY ROADS:

- Apportionment of Motor Vehicle Fuel Tax
- Apportionment of Motor Vehicle Registration and Weight Fees

FOR COUNTY AIRPORTS:

- Apportionment of Motor Vehicle Fuel Tax

FOR CITY STREETS:

- Apportionment of Motor Vehicle Fuel Tax

37				
38	GENERAL ANALYSIS			
39				
40	Article IX, Section 6 of the Constitution, fixes a payment of \$180 per pupil in average daily attendance during the preceding school			
41	year for public school support. This amount includes the support of all programs in the public schools with the exception of the			
42	motor vehicle operation instruction program. This program was added by Chapter 1877, Statutes of 1953. Under the provision			
43	of this statute, 75 percent of the excess cost of conducting a motor vehicle operation instruction program, but not to exceed \$30			
44	per student, shall be paid by the Superintendent of Public Instruction. Payments of \$699,669 were made in 1954-55, \$1,116,773			
45	in 1955-56, and it is estimated \$1,369,000 will be spent in 1956-57. This program is supported by the collection of additional fines			
46	on moving violations of the Motor Vehicle Code which are paid into the General Fund. So much as is necessary is then trans-			
47	ferred to the State School Fund for the support of this program.			
48	Chapter 723, Statutes of 1955, provided that advances could be made from the General Fund for newly formed junior college districts,			
49	one-half of the advance must be repaid in each of the next two succeeding years from apportionments received from the State			
50	School Fund. In 1954-55 advances of \$37,680 were made.			
51	The average daily attendance for 1955-56 is estimated at 2,555,000, an increase of 173,896, or 7.3 percent, over 1954-55.			
52	Expenditures for apportionment purposes are estimated to total \$461,232,160 in 1956-57 compared to \$429,727,098 in 1955-56, an			
53	increase of \$31,505,062, or 7.3 percent.

Vocational Education—Reimbursement to School Districts

RECONCILIATION WITH APPROPRIATIONS

General Fund

Budget Act appropriation	\$646,602	\$725,763	\$737,457
Salary Increase Fund	-	8,173	-

Federal Aid Funds ^a

Federal grants for vocational education	\$1,462,830	\$1,462,830	\$1,462,830
Total Available, All Funds	\$2,109,432	\$2,196,766	\$2,200,287
Reserved for vocational education—state level support (see State Operations Budget, page 260)	-	\$25,420	\$48,049
Reserved for supervision and teacher training (see State Operations Budget, page 260)	\$679,657	-	-
TOTAL EXPENDITURES, ALL FUNDS	\$1,429,775	\$1,371,346	\$1,352,238

GENERAL ANALYSIS

In accepting federal acts for vocational education, the State has provided continuing appropriations to match in part federal grants in aid contained in these acts. After deduction of state operating costs, the remaining balances of state and federal funds for supervision and teacher training costs are distributed to public secondary school districts maintaining approved courses in vocational instruction in agriculture, homemaking, and industrial occupations.

These funds are allocated to programs at the local level as follows:

Agriculture	\$325,097	\$314,364	\$314,394
Industrial	776,594	748,035	733,444
Homemaking	301,886	291,929	288,765
Business	26,198	17,018	15,635
TOTAL EXPENDITURES	\$1,429,775	\$1,371,346	\$1,352,238
General Fund	373,254	318,554	313,432
Federal funds ^a	1,056,521	1,052,792	1,038,806

The 1954-55 actual expenditures were distributed between state and federal funds as follows:

	STATE	FEDERAL	TOTAL
Agriculture	\$86,970	\$238,127	\$325,097
Industrial	214,232	562,362	776,594
Homemaking	53,558	248,328	301,886
Business	18,494	7,704	26,198
	\$373,254	\$1,056,521	\$1,429,775

^a Federal funds. Neither the receipts nor the expenditures therefrom are included in the over-all budget totals. See Schedule 7 for summary of federal funds.

19	GENERAL ANALYSIS			
20				
21	Child care centers were established where a demonstrated need was shown for the care of minor children whose parents were working or incapacitated by illness or other disability. In 1954-55 the program was administered under the provisions of Chapter 1427, Statutes of 1953, which terminated the program on June 30, 1955. The program was re-established for a two-year period through June 30, 1957, by Chapter 1194, Statutes of 1955. This chapter contained an appropriation for the 1955-56 Fiscal Year only. The proposed appropriation for the 1956-57 Fiscal Year is contained in the Budget Bill.

47				
48	GENERAL ANALYSIS			
49				
50	The State Allocations Board, under the provisions of this program, apportions money to local school districts which are impoverished to the extent that their tax rate was within one-half cent of the legal maximum, and their bonded debt exceeded 95 percent of the amount permitted by law.			
51				
52	A total of \$55,000,000 was appropriated for the program, which must have been applied for by the school district prior to December 31, 1953. Allotments were made on approved applications until December 31, 1954. Payments were made until December 31, 1955.			
53				
54				
55	The current allotments being made are for increased costs on projects previously approved.			
56	Balances of allotments on completed projects being returned by the school districts are in excess of new allotments. Chapter 1840, Statutes of 1955 appropriated \$50,000 to finance completion or reimbursement to districts for projects for which apportionments have previously been made.

30				
31	GENERAL ANALYSIS			
32				
33	The school building loan program was started in 1949 for the purpose of assisting local school districts in providing urgent			
34	needed public school facilities. Those school districts which are financially able to do so will repay all or part of the amount			
35	advanced to them. The amount to be repaid each year from each school district is measured by the relationship between the			
36	assessed valuation of the district and the amount the district must raise by local property taxes for payment on its bonded			
37	indebtedness.			
38	State funds from which loans may be made to local school districts are provided from sale of bonds. There has been \$515,000,000			
39	authorized from sale of bonds, and \$20,000,000 was provided from the General Fund. At the next general election, the people			
40	will vote on an additional \$100,000,000 bond issue. If this is approved, there will have been provided a total of \$635,000,000			
41	for the program.			
42	Of the bonds authorized, \$385,000,000 have been sold as of November 1, 1955, and it is estimated that \$30,000,000 will be sold			
43	every sixth month thereafter.			
44	Interest and redemption charges on these bonds are initially paid from the General Fund. Any moneys in the bond funds which are			
45	derived from repayments from school districts or from interest on investments held by the bond funds is available for transfer			
46	to the General Fund, and is accounted as an offset against the debt service charges paid from the General Fund.			
47	The School Bond Retirement Fund was established by the transfer of \$50,000,000 from the General Fund. In 1954, \$27,369,821 was			
48	returned to the General Fund. The balance in the fund is available for annual transfer to the General Fund as an offset against			
49	the debt service charges on school building bonds.

Contributions to Teachers' Retirement System

RECONCILIATION WITH APPROPRIATIONS

General Fund

Budget Act Appropriation:

For transfer to Teachers' Permanent Fund	\$6,301,000	\$7,028,000	\$7,218,000
For transfer to Retirement Annuity Fund	16,619,000	18,557,000	19,546,000
TOTAL EXPENDITURES	\$22,920,000	\$25,585,000	\$26,764,000

GENERAL ANALYSIS

The State Teachers' Retirement System by 1956-57 will contain 161,355 active members, with an additional retired roll of 16,800 members. Since July 1, 1944, members' contributions have been on a full reserve basis. State contributions are appropriated in amounts required to liquidate the amount of maturing liabilities not funded from the members' accumulated reserve rather than as the liabilities accrue.

The State's contribution to the Teachers' Permanent Fund and Retirement Annuity Fund is used to finance the major portion of expenditures for retirement allowances, approximately 80 percent of which are due on account of prior service. Subventions to local retirement systems and a portion of death benefits from the Retirement Annuity Fund are also provided from state contributions. Expenditures not funded by state contributions are financed from the contributions of the employing agencies and the accumulated contributions of members.

Chapter 1395, Statutes of 1955, established a new formula to be used in the calculation of retirement allowances. This legislation also provided that the allowances of persons already retired would be recalculated, and generally all retired members will receive substantial increases in benefits on July 1, 1956, the operable date of this chapter. The recalculation of the allowances will not be completed until nearly the end of the current fiscal year, and the estimates of allowances made in this statement are based on what is anticipated to be the effect of this legislation.

It is estimated that the revenue to be derived from employers, on the basis of contributions equivalent to 3 percent of the certificated pay rolls as required by Chapter 1395, Statutes of 1955, will amount to \$12,000,000.

The following schedule outlines the expenditure program:

TEACHERS' PERMANENT FUND ^c

Retirement Allowances:

State Obligation:			
Budgeted	\$6,301,000	\$7,028,000	\$7,218,000
Surplus of appropriations brought forward	277,082	49,000	358,730

State obligations	16,619,000	18,557,000	19,546,000
Surplus of appropriations brought forward	671,522	342,623	—511,744
District contributions	—	—	12,000,000
Members' contributions	3,019,186	3,613,512	4,160,744

^a District contributions computed at 3 percent of certificated pay roll pursuant to Chapter 1395, Statutes of 1955.

^b The payments to local systems consist of payments of amounts equal to the allowances which would have been payable had the retired members involved been entitled to benefits from the state system alone. The payments are made on the basis of the amounts withheld from local members in the preceding year, and are reduced by one-half of the benefit payable on account of service after 1944 on which no Retirement Annuity Fund contributions have been paid.

^c For fund statements, see Appendix.

General Fund

Budget Act appropriation (expenditures) ----- \$3,118,944 \$3,234,896 \$3,364,032

Federal Funds

Grants-in-aid (expenditures) ----- \$409,840 \$472,369 \$472,369

TOTAL EXPENDITURES, ALL FUNDS ----- \$3,528,784 \$3,707,265 \$3,836,401

GENERAL ANALYSIS

These federal and state funds are allocated to qualified health departments to provide effective local public health services. State funds are allocated to local health departments in accordance with Sections 1100-1156 of the Health and Safety Code. The General Fund provision is based on a formula of 60 cents per capita or \$16,000, whichever is less, as a basic amount, plus a per capita of 20.735401 cents. The 1956-57 amount of \$3,364,032 is calculated on a basis of July 1, 1956, population estimate of 13,455,000. The federal funds are distributed in the same ratio as state funds.

14							
15	GENERAL ANALYSIS						
16							
17	Chapter 740, Statutes of 1953, authorized the Department of Public Health to furnish local public health services to those counties						
18	without recognized local health departments who contributed a minimum of 55 cents per capita. Alpine and Mono Counties						
19	initiated this program during 1954-55. Sierra and Trinity contracted for these services in July, 1955, with Mariposa participating						
20	since January, 1956. Estimated expenditures for 1956-57 provides salaries for four sanitarians, four public health nurses, and re-						
21	lated operating expense in Mono, Alpine, Mariposa, Sierra, and Trinity Counties. One doctor provides medical supervision in the						
22	five counties. In addition, funds are provided during 1956-57 for two nurses and two sanitarians for counties which may elect to						
23	establish health services under this program. Ten such counties, not having health programs, are eligible for aid under this						
24	program.						
25	The following schedule indicates the categorical expenditures of this appropriation:						
26							
27	SALARIES AND WAGES				SALARY RANGE		
28	Public health medical officer III-----	—	1	1	\$950-1,050	\$12,450	\$12,600

11				
12	GENERAL ANALYSIS			
13				
14				
15	These expenditures provide state grants-in-aid to counties, cities, and cities and counties for the treatment and care of persons suffering from tuberculosis. The funds are allocated in accordance with Division 4 of the Health and Safety Code which provides for a graduated subsidy rate. The reversions in this item are the result of improved techniques of case finding and treatment.			
16	The Budget Act provides a subsidy of \$2.60 per patient day for the first 36,500 patient days of care, \$2.30 per patient day for the second 36,500 patient days, and \$1.75 for all additional days per county, city, or city and county providing care to persons suffering from tuberculosis under Division 4 of the Health and Safety Code, plus an additional 35 cents per patient day to each category.

33				
34	GENERAL ANALYSIS			
35				
36				
37	This budget provides funds for a state program for handicapped children, as authorized by Sections 249-271 of the Health and Safety Code. The code provides that whenever the parent or guardian of the child is unable to finance necessary care, a designated agency of the county shall authorize the State to furnish such services. Further, it makes mandatory that each county appropriate not less than one-tenth mill on each dollar of assessed property valuation for the purpose of financing the program.			
38	The proposed Budget Act provides a legislative formula for the distribution of these funds to the various counties. This formula is as follows:			
39	After expending the one-tenth mill per dollar of assessed valuation, each county is allotted sufficient funds to finance a program of 35 cents per capita or \$20,000 whichever is greater. Over this amount the costs are to be shared from available funds on a basis of two-thirds State, one-third county.			
40	The estimated cost of the total crippled children's program based on state funds to provide equalization of the 35 cents per capita level with one-third county, two-thirds state sharing beyond that point is shown in the following table:			
41				
42				
43	Estimated Grand Total Program Costs.....	\$5,862,134	\$7,039,904	\$7,646,434

76				
77	GENERAL ANALYSIS			
78				
79	This budget provides funds which will permit the department to employ therapists or to enter into contracts with local agencies to provide for the employment of therapists, for classes for cerebral palsied children. It is intended that all such personnel will be transferred to local pay rolls as soon as feasible.			
80	The 1956-57 Budget provides funds for 142 therapists in existing classes and 12 new classes which are anticipated to be established.			
81				
82				
83				
84				
85	a An estimated \$360,000 of these savings accrued because of a change in accounting methods.

17				
18	GENERAL ANALYSIS			
19				
20	This subsidy is allocated to local or public agencies to control mosquitos. A major portion of the funds are distributed in accordance			
21	with an administrative formula which gives emphasis to the presence of mosquito borne disease and the tax load of the local			
22	agency.			
23	In accordance with the Budget Act of 1955, requiring a minimum expenditure of \$25,000 for research, \$30,508 is budgeted for this			
24	purpose. The research program includes an analysis of irrigation techniques of pasture, cotton, and rice fields, to determine what			
25	wetting pattern provides the lowest mosquito hatch. Investigation of mosquito larva control by an algae growth in irrigated			
26	fields is being continued. Both of these projects were initiated under special grants in this subsidy in previous years. A new			
27	project undertaken during the current year is the testing of equipment and chemicals used in killing mosquitos.

67				
68	GENERAL ANALYSIS			
69				
70	This program is authorized by the California Hospital Survey and Construction Act which provides that the State may participate			
71	in the federal hospital construction program. Chapter 1575, Statutes of 1955, enacted two major revisions in the State Hospital			
72	Act.			
73	The two revisions are: (a) expanded the definition of hospital to include nursing homes, diagnostic and treatment centers, chronic			
74	disease hospitals and rehabilitation centers to correspond with the federal Wolverton amendment which made the same changes			
75	to the Federal Hospital Act, and (b) authorized allocation to nonprofit as well as governmental hospitals. This law became			
76	effective July 1, 1955, and necessitates the Budget Act augmentation to match federal funds allocated during 1955-56.			
77				
78	a Budget Act of 1954, Item 381.1, appropriation of \$150,000 was provided to cope with emergency mosquito control if necessary.			
79	Favorable weather conditions made unnecessary the expending of these funds.			
80	b In 1955-56 allocations from the General Fund will amount to approximately \$2,158,511 in excess of available appropriations, for			
81	which formal contracts will not be executed until 1956-57. A similar procedure is proposed for 1956-57 and it is estimated that			
82	General Fund allocations necessary to match available federal funds will amount to \$2,386,929 more than the proposed appro-			
83	priation, to be formalized by contracts in 1957-58.			
84	c Legislative changes at the 1955 Session resulted in inadequate appropriations to match all available federal funds.

\$665,000

PROJECT DETAIL

Payments to local agencies of not more than one-half the cost of preparing plans and acquisition of sites for postwar public works projects and for construction of projects. Funds for construction are allocated one-half to the counties in proportion to population, plus \$100,000, of which one-third shall be for construction of roads and highways; and one-half to the cities in proportion to population. Pursuant to Sections 26 and 27 of the Construction and Employment Act (as amended by Chapters 1435 and 1436 Statutes of 1955) appropriations for which application have not been made by January 1, 1957, will revert to the General Fund

12				
13				
14	GENERAL ANALYSIS			
15				
16	This is a public assistance program in the form of financial help paid by the county and state governments to persons who, because			
17	of loss or impairment of sight, are unable to fully provide themselves with the necessities of life but are working on a plan for			
18	self support. This program is administered by county welfare departments and supervised by the State Department of Social			
19	Welfare. The Federal Government does not participate in this program. The 1955 Legislature increased the maximum monthly			
20	grant from \$90 to \$95.			
21

49				
50				
51	GENERAL ANALYSIS			
52				
53	Until September, 1955, for each person receiving assistance who entered a hospital or institution for care at county expense, \$35.20			
54	per month was paid by the State to the county. This payment was made during the period following the first two calendar months			
55	of confinement and during the period of this payment the individual did not receive assistance payments. The 1955 Legislature			
56	repealed these provisions and in lieu thereof extended eligibility to old age security and aid to the needy blind to include pa-			
57	tients in public medical institutions who are not receiving treatment for tuberculosis or psychosis.			
58

18				
19				
20	GENERAL ANALYSIS			
21				
22	This is a public assistance program financed by county, state, and federal governments. The primary purpose of the program is to			
23	provide family security and financial assistance for needy children who are deprived of parental support or care. The program			
24	is designed to keep children in a setting of their own family and to enable parents to continue responsibility for the family			
25	living plan. If it is not possible for a child to live with his own family, the program aims to provide the best substitute care			
26	in the home of a relative, in a foster home, or in a children's institution. The program is administered by county welfare			
27	departments and supervised by the State Department of Social Welfare. Amendments enacted by the 1955 Legislature ren-			
28	dered children relinquished to a public adoption agency eligible to receive aid until placed for adoption.

1				
2				
3	Reimbursement to Counties for Administration and Cost of Care of Adoptions—Continued			
4				
5	GENERAL ANALYSIS			
6				
7	The State Department of Social Welfare licenses county adoption agencies to accept relinquishments and make adoptive placements			
8	of children and to investigate and report on petitions for adoptions filed independently. Licensed county agencies are reimbursed			
9	by the State for all administrative costs. Until September 30, 1955, the cost of care for relinquished children was also reim-			
10	bursed by the State; from October 1, 1955, such children are eligible to aid to needy children. Fees received from adoptive			
11	parents (\$300 maximum) are abated to the cost of administration.			
12	The cost of care for children committed to the State Department of Social Welfare or a public adoption agency pursuant to Section			
13	226(c) of the Civil Code is reimbursed by the State.			
14	Provision is made in the estimate for 1956-57 to license three additional counties for the acceptance of relinquishments and one addi-			
15	tional county for the investigation of independent petitions. In the event this county is not licensed as anticipated, the budget			
16	bill authorizes a transfer to the departmental support appropriation of the amount necessary for the department to investigate			
17	and report on independent adoptions.			
18

Salaries of Superior Court Judges

Under the provisions of Section 68206 of the Government Code, the State contributes towards the salary of each judge of the superior courts in accordance with the population of the county as determined by Section 68207 of the Government Code. The following statement shows the contribution by the State and by the county towards the salary of each judge:

POPULATION OF COUNTY	State's share	County's share	Total salary
250,000 or more-----	\$8,500	\$9,500	\$18,000
More than 40,000 but less than 250,000-----	9,000	7,500	16,500
40,000 or less-----	9,500	5,500	15,000

The amount budgeted is to provide the amount required for each of the 243 judges authorized by existing law.

1	Assistance to Counties for Juvenile Homes and Camps			
2				
3				
4	Under the provisions of Sections 950 through 960 of the Welfare and Institutions Code, the board of supervisors of any county may			
5	establish juvenile homes, ranches or camps. Wards are committed by the juvenile courts to these facilities in lieu of commitment			
6	to the Youth Authority.			
7	Certain standards prescribed by the Youth Authority must be met by the counties before they are entitled to receive any state			
8	funds. Reimbursement to counties are made for one-half of operating costs, but not in excess of \$95 per month per child. There			
9	is no limit as to the number of camps for which any one county may be reimbursed.

CLASSIFICATION OF TREASURY FUNDS NOT INCLUDED IN BUDGET TOTALS

Funds in the State Treasury not included in the budget totals are those which do not contribute nor reflect expenditures of state moneys.

1. **UTILITY FUNDS** operate under state control for the benefit of the public and derive their resources from charges to those who use the service, and are not supported from taxes or other state revenues. They are not functions subject to the regulatory or police powers of the State.

2. **WORKING REVOLVING FUNDS** are created to finance services for governmental agencies for which charges are made at cost to maintain a fixed accountability. The charges are reflected as expenditures in the budget of the agency receiving the commodity or service.

3. **INTEREST AND SINKING FUNDS** are created to accumulate moneys from transfers or investments, to be used for payment of interest and redemption of bonds. The cost of these payments is accounted as a debt service expenditure of the state fund from which such moneys are transferred.

4. **BOND FUNDS** hold proceeds from sale of bonds and finance projects for which the bonds were authorized. The cost to the State is accounted as a debt service expenditure at the time the bonds are redeemed, or interest payments are made.

5. **ASSESSMENT FUNDS** are created to finance projects for which charges are assessed against the property or individuals who are benefited by the project.

6. **TRUST, FEDERAL, AND OTHER FUNDS** include those funds holding moneys in trust pending disbursement to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their resources from taxes or other state revenues, or are in the nature of transitory funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

Department of Education

STATE COLLEGE HOUSING FACILITIES

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at				
2	Chico, Fresno, Humboldt, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges				
3	by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State				
4	by Public Law 796 of the Eightieth Congress, and their operations were financed through the General Fund support appropri-				
5	ation of the individual colleges as an interim measure.				
6	On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred				
7	the excess of income over expenditures for prior operations. All rents, charges, and fees are paid into this fund and are appropri-				
8	ated therefrom to the Department of Education for maintenance, repairs, and operation of student housing facilities. Funds				
9	may also be expended for construction. The facilities provide housing for veterans or other students at established rates. The units				
10	available at each college are listed below (facilities at California State Polytechnic College are exempted from provisions of the				
11	above statute):				
12					
13	Chico State College-----	58 family dwelling units			
14		66 dormitory units (140 individuals)			
15	Fresno State College-----	52 family dwelling units			
16		47 dormitory units (73 individuals)			
17	Humboldt State College-----	32 family dwelling units			
18		84 dormitory units (221 individuals)			
19	San Francisco State College-----	73 family dwelling units			
20		10 dormitory units (52 individuals)			
21	San Jose State College-----	148 family dwelling units			
22		26 trailer courts			
23					
24	Total -----	363 family dwelling units			
25		207 dormitory units			
26		26 trailer courts			
27

COMPENSATION INSURANCE FUND

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer employers insurance protection at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees. The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

Department of Veterans Affairs

DIVISION OF FARM AND HOME PURCHASES

The California Veterans Farm and Home Purchase Plan, originally created by the Legislature in 1921, permits the State Department of Veterans Affairs to assist a qualified California veteran of any war to acquire suitable farm or home property. Funds for the purchase of property are obtained through state bond issues. The amount advanced by the State for purchase of a farm or home is repaid by the veteran, at a low rate of interest, through uniform monthly payments over a period of years. Title is acquired by the State at the time of purchase and is transferred to the veteran upon completion of his purchase contract.

GENERAL ANALYSIS

Number of positions	271	291	301	10
Monthly Rate of Investment:				
Average monthly purchases	772	780	780	—

The \$175,000,000 bond issue authorized by the Veterans' Bond Act of 1954, approved at the general election in November, 1954, will be used to finance the program through the 1956-57 Fiscal Year. New legislation, effective September 7, 1955, increased the property valuation maximums to \$17,000 for homes and \$30,000 for farms with the limit on total real property owned by the veteran eliminated. Effective January 1, 1956, the cost of fire insurance to the extent of the original amount of the veteran's contract will be absorbed by the department. Each contract holder will receive credit on his account for the pro rata amount of his prepaid fire insurance premium on January 1, 1956.

Department of Corrections

CORRECTIONAL INDUSTRIES REVOLVING FUND

PROGRAM

The Correctional Industries Revolving Fund constitutes a permanent revolving fund to finance the work program of the Department of Corrections in the prisons and institutions under its jurisdiction. Moneys received from the rendering of services or the sale of products are paid to the State Treasurer for credit to the fund.

The Correctional Industries Commission, representing organized labor, industry, agriculture, and the general public, is empowered to recommend productive industrial and agricultural enterprises in the prisons and institutions. This includes determining the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise involving a gross annual production of not more than the maximum determined by the formula established by the Legislature. The maximum was \$350,000 value during the 1955 calendar year.

Correctional Industries is taking an increasing role in the rehabilitation of inmates through its organized industrial and farming enterprises. Work programs are planned in all institutions except the Medical Facility.

Activities range from farm and ranch operations at the California Institution for Men at Chino and the California State Prisons at Soledad and Folsom to large industrial operations such as the license plate factory at the California State Prison at Folsom, and the cotton textile mill at San Quentin.

A majority of the inmates employed are paid for productive work on a sliding scale up to 10 cents per hour. Wages rates are established in accordance with the experience and skill of the individual employed.

During the year ending June 30, 1955, Correctional Industries operated 27 industrial shops and factories plus 22 farming and ranching enterprises distributed among six institutions, and employed between 2,346 and 2,934 inmates at various times throughout the year. This was from 15.3 percent to 19.2 percent of the total prison population. The fluctuation was caused by those industries that have seasonal peaks and low periods of employment such as the canneries and many of the ranch functions.

GENERAL ANALYSIS

Number of positions----- 160 206.3 205.9 —0.4

Analysis

This budget provides for the operation of existing facilities and for normal expansion. The cotton mill at San Quentin is budgeted for two-shift operation.

SALARIES AND WAGES: The increase of \$77,118 is mainly due to merit salary adjustments, the full operation of the second shift at the cotton mill, and to one new position as follows:

Proposed New Positions:

Deuel Vocational Institution:

- 1 Correctional industries foreman----- \$4,710
This position will supervise the maintenance program for the growing industrial operation. The complex and expensive machinery requires a programmed maintenance schedule in order to avoid costly repairs and delays in production.

^a Cash funds plus amount due from Money Investment Fund less current liabilities.

^b Contributions to State Employees' Retirement Fund included in above amounts

(\$58,586) (\$80,850) (\$88,500)

^k Two positions established in 1955-56.

STATE EDUCATIONAL AGENCY FOR SURPLUS PROPERTY

Surplus property of all federal agencies, as well as surplus foods, is made available to schools through this agency. All expenses of procuring, handling and distributing such property are paid from this fund and recovered by nominal service charges to school districts based on a percentage of the fair value of the property distributed. Any excess service and handling charges are refunded to the participating school districts after the close of each fiscal year. Reserves are maintained in the fund sufficient to meet any unliquidated obligations.

GENERAL ANALYSIS

Number of positions ----- 82.3 84.5 84.5 -

The program of this agency is scheduled for continuation at the same level as in 1955-56. The changes in expenditures are attributable to merit salary adjustments and the replacement of a larger number of automobiles and trucks.

Department of Education

CALIFORNIA INDUSTRIES FOR THE BLIND MANUFACTURING FUND PROGRAM

1 The California Industries for the Blind operates three production centers, at Oakland, Los Angeles, and San Diego. The California
 2 Industries for the Blind Manufacturing Fund is utilized as a revolving fund in the program of employment of blind and physically
 3 handicapped workers. The Workshop for the Blind Manufacturing Fund was created by Chapter 943, Statutes of 1949, by
 4 consolidating the assets and liabilities of the then existing Home for the Adult Blind Manufacturing Fund, the Los Angeles
 5 Industrial Workshop Manufacturing Fund, and the San Diego Industrial Workshop Manufacturing Fund. Chapter 425, Statutes
 6 of 1953 changed the fund title to correspond with the program. This fund constitutes a permanent revolving fund used to meet
 7 the expenses necessary to purchase materials and production equipment, and payment of wages and salaries and other expenses
 8 incident to the production program of the California Industries for the Blind, in the State Department of Education. Moneys
 9 received for the sale of products manufactured in the production centers, are paid into the State Treasury for credit to the fund.
 10 Activities in the production centers are many and varied and include such items as the manufacture of brooms, mops, pillowcases,
 11 surgical drapes and wrappers, rugs, brushes, rubber mats, mattresses, and the fabrication and assembly of many products on a
 12 subcontract basis.
 13 Approximately 300 blind and handicapped individuals will be employed during the 1956-57 Fiscal Year by the production centers for
 14 the blind.

PRINTING DIVISION

The Printing Division operates the State Printing Plant. The division does all of the printing for the various state agencies. Two of the larger activities are the printing required by the Legislature and the publication of textbooks for free distribution to the schools. The division is supported by charges made for printing services.

STATE WATER POLLUTION CONTROL FUND

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1					
2	Analysis				
3					
4	This revolving fund was created by Chapter 1551, Statutes of 1949, to provide loans to districts and municipalities for sewage and				
5	storm drainage facilities. The fund consists of \$1,000,000 appropriated thereto plus interest payments on loans.				
6					
7					
8					
9	SUMMARY AND				
10	RECONCILIATION WITH APPROPRIATIONS				
11	State Water Pollution Control Fund				
12					
13	Prior year balance available.....	\$211,531	\$35,190	\$45,145

SOIL CONSERVATION DEVELOPMENT FUND

The Soil Conservation Development Fund created by Chapter 1032, Statutes 1949, with an appropriation of \$1,000,000, as amended by Chapter 1210, Statutes 1953, and Chapter 1680, Statutes 1955, provides for the acquisition of soil conservation machinery, equipment, and buildings and rental thereof to soil conservation districts. The fund is administered by the State Soil Conservation Commission.

DIVISION OF ARCHITECTURE REVOLVING FUND

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
1	STATEMENT OF OPERATIONS			
2				
3				
4	Authorized by Section 14030 of the Government Code, the Division of Architecture Revolving Fund provides the Division of			
5	Architecture with a working revolving fund from which to pay the cost of architectural services and construction for state			
6	agencies. The resources consist entirely of transfers, subject to the approval of the Department of Finance, from appropri-			
7	ations for construction and improvements made to the several agencies. Expenditures are reported in the budgets of the			
8	agencies to which the appropriations were made. Any unexpended balance remaining after completion of a project is			
9	returned to the appropriation and fund of origin.			
10				
11	Accountability for project funds, July 1	\$52,448,868	\$41,738,599	\$44,838,599
12	Additions:			
13	Receipts from district agricultural associations	925,641	2,500,000	2,500,000
14	Transfers from state funds	44,839,094	71,600,000	\$1,300,000
15	Total Available	\$98,213,603	\$115,838,599	\$128,638,599
16	Deductions:			
17	Charges to projects (encumbrance basis)	\$47,208,381	\$70,000,000	\$90,000,000
18	Returns of Project Funds:			
19	District agricultural associations	124,352		-
20	State funds	5,707,668	1,000,000	1,000,000
21	Net decrease in receivables	3,434,603		-
22	Total Deductions	\$56,475,004	\$71,000,000	\$91,000,000
23	Accountability for Project Funds, June 30	\$41,738,599	\$44,838,599	\$37,638,599

LEGAL CITATIONS

The functions of the Division of Architecture are defined by Part 5, Division 3 of the Government Code and the following are the more significant provisions:

Section 14100. "The State Architect has general charge, under the department, of the erection of all state buildings * * *."

Section 14255. "Whenever provision is made by law for any project the project shall be under the sole charge and direct control of the Department of Public Works." A project is defined by Section 14254 as any construction or improvement of any state structure or improvement which will exceed \$2,000 in cost.

Section 14256. If the total cost of the project will not exceed \$20,000 or \$35,000 in the case of district agricultural associations the State Architect may, with the approval of the Director of Finance, authorize the agency concerned to carry out the project directly.

Sections 14270 to 14275 require full and complete plans and estimates prior to entering into any contract for a project; require work on all projects be done under contract awarded to the lowest, responsible bidder except in the event it is found that such procedure is not in the best interest of the State; and prohibit awarding a contract in excess of the estimate.

Sections 14290 to 14402 prescribe in detail the contract procedure to be followed; including advertising for bids, qualification of bidders, award of contracts, and payment.

SCHEDULE OF ESTABLISHED POSITIONS

To accomplish this program the Division of Architecture employs personnel in the technical and craftsman classes as needed. The salaries of the employees are paid from project funds and such expenditures are reported as a portion of the project cost.

Department of Corrections

INMATE WELFARE FUND

The Inmate Welfare Fund is a fund in the State Treasury which constitutes a trust held by the Director of Corrections for the benefit, education, and welfare of all inmates of institutions under the jurisdiction of the Department of Corrections. Included in the fund are the net proceeds from the operation of canteens and hobby shops and the money and property of prisoners who escape and are not apprehended or who die without leaving heirs.

22	GENERAL ANALYSIS						
23							
24							
25	Number of positions -----	18.5	18.5	21.6	3.1		
26							
27	Analysis						
28							
29	The increase of \$12,253 in expenditures is primarily due to proposed new positions for increased activity in the respective canteen						
30	operations. The increase of \$6,335 in operating expenses is more than offset by the \$8,262 reduction in equipment. Revenue-						
31	receipts are estimated to be \$1,119,362, only \$301 less than the estimated expenditures of \$1,119,663.

DEPARTMENT OF EMPLOYMENT

The Department of Employment administers the state employment service and the unemployment insurance and disability insurance systems. The department also performs certain functions in connection with two other federal programs. One is the Veterans Readjustment Assistance Act of 1952 which provides for unemployment allowances to veterans of the Korean War. The other is the Federal Employees Unemployment Compensation program under Title XV of the Social Security Act. These programs are administered by the United States Department of Labor.

The cost of administering the employment service, the unemployment insurance, the Veterans Readjustment Assistance Act and the Federal Unemployment Compensation program is financed almost entirely from federal funds. The cost of administering the disability insurance program is paid from the Unemployment Compensation Disability Fund which is derived from contributions by covered employees.

a Composed of savings in salaries and wages, \$212,060; operating expenses, \$32,679; and equipment, \$14,271.

b Composed of savings in operating expenses.

c Expenditures are included in the over-all State Operations Budget totals. Detail as shown here as expenditures is an integral part of total employment program.

DEPARTMENT OF EMPLOYMENT—Continued

LINE	EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57	CHANGE FROM 1955-56
1	GENERAL ANALYSIS				
2					
3					
4	Number of positions-----	4,062.3	4,187.7	4,154	—33.7
5					
6	The Bureau of Employment Security of the United States Department of Labor allocates federal funds to the various states for				
7	their employment service programs and unemployment insurance operations. The amounts so allocated are dependent upon the				
8	work loads of the individual state and the over-all amount appropriated by Congress for grants to all states. For fiscal 1956-				
9	57 an increased staff is requested for employment service operations to strengthen and increase the placement staffs in local				
10	offices and provide added emphasis on employer contacts and other phases of the job development program.				
11	For fiscal 1956-57 the number of positions requested for unemployment insurance operations is based upon multiplication of estimated				
12	work loads by unit times required for performance of specific operations.				
13	The disability insurance program provides benefit payments to covered employees who are out of work because of sickness or non-				
14	industrial injuries. This program is financed from the Unemployment Compensation Disability Fund and the expenditures for				
15	fiscal 1956-57 are based upon the estimated work load, principally expressed in the number of claims filed, and benefit payments.				
16	The amount proposed for support from the Department of Employment Contingent Fund is to provide for one-half of the cost of				
17	operation of the community employment program. This program involves work with local communities in the promotion and				
18	development of employment programs. The other half of the amount required for support of this program is paid from federal				
19	funds.				
20

26		1954-55	1955-56	1956-57	
27	OFFICE OF THE DIRECTOR AND DEPUTY DIRECTOR				
28					
29	Analysis				
30					
31	The Department of Employment is administered by the Director of Employment. He is appointed by the Governor subject to the				
32	approval of the Senate, and serves at the pleasure of the Governor. He is responsible for all phases of the administration of the				
33	California Unemployment Insurance Code except for certain quasi-judicial functions which are the responsibilities of the Appeals				
34	Board.				
35	The deputy director is appointed by the Governor subject to the approval of the Senate and serves at the pleasure of the Governor.				
36	He assists the director in the administration of the code and acts for the director in his absence. He is also Chief of the Divi-				
37	sion of Accounts and Tax Collections.				
38	The Employment Stabilization Commission was eliminated by the 1955 Session of the Legislature, therefore, the position of execu-				
39	tive assistant California Employment Stabilization Commission was eliminated in the 1954-55 Fiscal Year.				
40	The Public Information Section was re-established as a separate organization unit in September, 1955, and the chief of public infor-				
41	mation and education and his staff were transferred to that section.

60							
61	PUBLIC INFORMATION SECTION						
62							
63	Analysis						
64							
65	The Public Information Section informs employers and employees of their rights and responsibilities under the Unemployment						
66	Insurance Code, and of the services of the public employment offices; instructs the public in matters concerning the code; and						
67	maintains liaison with representative groups.						
68	This section was re-established in September, 1955, and the employees transferred from the office of the director.

30	Unemployment Insurance Appeals Board						
31							
32	Analysis						
33							
34	The three members of the California Unemployment Insurance Appeals Board constitute the final administrative body, vested by						
35	law with the responsibility of reviewing and deciding appealed matters relating to disputed unemployment insurance and						
36	disability benefit determinations and employer tax liability. The Appeals Board formulates its own administrative policy and						
37	through its secretary and chief referee (the two principal appeals and review officers), administers the affairs of the entire						
38	division including area offices of the Division of Appeals. The Appeals Board also hears appeals from rules and regulations						
39	proposed by the director.

4	Area Referee Offices						
5							
6	Analysis						
7							
8	The Division of Appeals has area referee offices in San Francisco, Sacramento, and Los Angeles. These three offices are under the supervision of one of the principal appeals and review officers and each office is supervised by a senior referee. In each area referee office there is a staff of referees who have the responsibility in the first instance of hearing and deciding appeals from determination relating to unemployment insurance benefits, disability benefits, overpayments and disputed employer tax liability matters.

2	DIVISION OF PUBLIC EMPLOYMENT OFFICES AND						
3	BENEFIT PAYMENTS						
4							
5	Office of Chief of Division of Public Employment Offices						
6	and Benefit Payments						
7							
8	Analysis						
9							
10	The Chief, Division of Public Employment Offices and Benefit Payments, directs the activities of the Management Inspection Section,						
11	Farm Placement Section, Employment Service Technical Section, Benefit Payments Technical Section, and the chief of field						
12	operations. The chief of field operations is responsible for the local office activities of the division.						
13	The position of Chief, Division of Public Employment Offices and Benefit Payments was created in September, 1955, after the Legis-						
14	lature, at the 1955 Session, removed the requirement that the director also serve as a division chief.						
15	The position of chief of field operations was eliminated in a reorganization in the 1953-54 Fiscal Year but was re-established in						
16	September of 1955.

43	Farm Placement Section						
44	Analysis						
45	The Farm Placement Section develops and evaluates programs for the recruitment and placement of farm workers. It also supervises						
46	farm placement offices and operations throughout the State.						
47	This section was reorganized in September, 1954. Forty-three positions that were in the three area offices and 23 positions that were						
48	in the local offices during July and August, 1954, were transferred to this section.						
49	SALARIES AND WAGES

1	STANDARDS AND METHODS SECTION						
2							
3							
4	Analysis						
5							
6	The Standards and Methods Section is responsible for a continuous review of the department's organization and the coordination						
7	of programs, policies, and procedures. It evaluates present and future efficiency and effectiveness of existing policies, methods						
8	and organizational responsibilities. It endeavors to be informed of all problems which require planning, to develop adequate						
9	solutions, and to follow up results of planning activities.

37							
38	ACCOUNTING SECTION						
39							
40	Analysis						
41							
42	The Accounting Section processes employer status records and contribution and earnings reports; receives and deposits remittances;						
43	maintains employer reporting and accounting controls, and reserve accounts records; reconciles the bank accounts of the						
44	various benefit programs; maintains employer and wage earner report files; recomputes insurance awards; adjusts insurance ac-						
45	count balances; maintains fraud and overpayment records; and maintains accounts and processes documents relating to unem-						
46	ployment insurance and disability insurance overpayments.

47							
48	Administrative Services—Area Business Management Unit						
49							
50	Analysis						
51							
52	The Area Business Management Units in Los Angeles and San Francisco advise the area and field office managers on fiscal and personnel management procedures; develop proposals for maintenance of equipment and changes in field office premises and improvements in physical facilities; negotiate with lessors; secure bids from contractors; advise on equipment needs; authorize public utility installations; maintain personnel and pay roll roster records for all positions; process personnel documents; interview, select, and assign eligible applicants for clerical positions. The property unit performs these functions in Sacramento.						
53							
54	The internal auditors in the Area Business Management Units audit financial operations and records in all field offices; verify cash balances; determine whether prescribed security measures are observed for the safety of cash; ascertain that prescribed local office cash payment procedures are being followed; and examine overpayment collection accounts and receipts.

44	Administrative Services—Personnel Section						
45							
46	Analysis						
47							
48	The Personnel Section assists management in planning, developing, placing into effect, and evaluating a comprehensive and effective						
49	personnel program which includes the views and interests of employees.						
50	This section was reorganized in September, 1954, as the Personnel and Training Section. Two positions that were in the Division						
51	of Administration and Finance—Administrative Services—General Administration during July and August, 1954, were trans-						
52	ferred to this section.						
53	The Training Unit was transferred to Administrative Services—General Administration in January, 1955.

^a Chapter 1603, Statutes of 1951, appropriated \$9,500,000; Chapter 1776, Statutes of 1953, appropriated \$950,000.

^b Chapter 16, Statutes of 1954 (First Extra Session), appropriated \$2,750,000.

^c As of June 30, 1955, the Unemployment Trust Fund includes \$103,243,115.85 principal and \$20,435,325.75 interest which is available for either unemployment insurance payments or disability insurance payments.

^d Represents unclaimed contributions of \$27,283; escheated warrants and insurance checks of \$21,567; and cashier overages of \$245.

STATE OFFICE BUILDINGS FINANCED BY LOANS FROM TREASURY FUNDS

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1954-55	ESTIMATED 1955-56	PROPOSED 1956-57
1	OFFICE BUILDINGS, VARIOUS CITIES			
2	(Loans From State Trust Funds)			
3				
4				
5	The State Building Construction Act of 1955 provides that the State Public Works Board may issue revenue bonds or certificates to			
6	provide funds to acquire or construct state office buildings when authorized by a separate act or appropriation of the Legislature.			
7	Tentatively it is the plan to borrow from state trust funds. The buildings so acquired or constructed are to be leased by state			
8	agencies at a rental rate that will retire the bonds or certificates and provide for the payment of interest.			
9	Chapter 1687, Statutes of 1955, provides for the acquisition of sites and the construction of buildings in six major cities at a total			
10	cost of \$26,645,900 as follows:			
11	Sites:			
12	Fresno (additional) -----		\$150,000	
13	San Diego (initial) -----		400,000	
14	San Jose (initial) -----		200,000	\$750,000
15				
16	Construction (detailed below) -----			25,895,900
17				
18	Total, State Building Construction Act of 1955 -----			\$26,645,900
19				
20	The site acquisitions authorized under the above statutory program are to be deferred for review of the method of financing site			
21	acquisitions. It is proposed in the Capital Outlay Section of this budget to acquire sites for the office buildings in Fresno and			
22	Stockton from direct appropriations rather than from the proceeds of certificates or revenue bonds. Direct appropriations are			
23	currently available toward site acquisitions at San Diego and San Jose.			
24	Preliminary plans for the buildings in Fresno, Los Angeles, Oakland, San Diego, and San Francisco are in preparation. The plans for			
25	San Jose await determination of the site location.			
26

44				
45	CIVIL DEFENSE HEADQUARTERS BUILDING, SACRAMENTO			
46	(School Land Fund)			
47				
48	Funds have been loaned for the construction of the Civil Defense Headquarters Building and the Highway Patrol Academy from			
49	the School Land Fund under the provisions of Chapter 1597, Statutes of 1951. Under a contract between the Governor, Director			
50	of Finance, and the Highway Patrol Commissioner the costs of these facilities are to be repaid with interest at 2½% per annum			
51	by the respective agencies in 240 equal monthly installments. The negative expenditure in the amount of \$5,824 in 1954-55			
52	represents federal contributions toward the installation of intercommunicating equipment.

BUSINESS AND PROFESSIONS BUILDING, SACRAMENTO
(Various Funds)

Constructed by advances from Special Funds and the General Fund in accordance with Sections 400 to 404 of the Business and Professions Code. For detail of repayment program see budget for Departmental Administration, Department of Professional and Vocational Standards.

OFFICE BUILDING, SACRAMENTO
(Veterans Affairs Construction Fund)

This office building is under construction pursuant to Chapter 1413, Statutes of 1953, primarily for use of the Department of Veterans Affairs. This statute also creates the Veterans Affairs Construction Fund to be financed by the transfer of surplus moneys, available in the Veterans Farm and Home Building Fund of 1943. The Veterans Affairs Construction Fund finances the construction of the Veterans Building as well as the operations of the building after completion. Occupying agencies will pay rent to the Veterans Affairs Construction Fund sufficient to repay the amount of transferred surplus together with interest to the Veterans Farm and Home Building Fund of 1943. Completion of this building in March, 1957, is anticipated.

REAL PROPERTY ACQUISITION

JUDGES' RETIREMENT SYSTEM

The Judges' Retirement Fund receives contributions from the State in the amount of 2½ percent of the salaries of justices of the Supreme Court and of the district courts of appeal, and judges of the superior courts and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund. There will be 438 members contributing to this retirement fund effective January 1, 1956.

TEACHERS' RETIREMENT FUNDS

LINE	FUND CONDITION	ACTUAL 1954-55	ESTIMATED 1955-56	ESTIMATED 1956-57
1	The State Teachers' Retirement System is composed of approximately 161,355 active accounts. Approximately 16,800 members will receive retirement benefits during 1956-57. The present system became operative July 1, 1944.			
2				
3				
4	Three major funds constitute the State Teachers' Retirement System. They are the Teachers' Permanent Fund, the Retirement Annuity Fund, and the Annuity Deposit Fund.			
5	The Teachers' Permanent Fund receives its revenue from members' contributions, contributions from the school district, interest from invested reserves, and yearly appropriations by the State from the General Fund. Retirement benefits from the fund are currently \$600 per year to the person who is credited with 30 or more years of service, and who retires at age 60 and a pro rata of that amount for less than 30 years of service. All benefits from this fund are adjusted actuarially if the member retires at an age either more or less than 60.			
6				
7				
8	The assets of the Teachers' Permanent Fund are divided between two reserves: the restricted reserve made up of an original appropriation by Chapter 13, Statutes of 1944, Fourth Extraordinary Session, plus accumulated interest; and the unrestricted reserve composed of contributions made by members, plus interest accumulated thereon, and including any surplus or deficit of prior years' appropriations carried forward to the ensuing year.			
9				
10				
11	The Retirement Annuity Fund receives its revenue from the members' contributions, interest from invested reserves, and yearly appropriations by the State from the General Fund. Under Chapter 1395, Statutes of 1955, school districts and employing state agencies will be required to pay contributions equal to 3 percent of the certificated pay roll to this fund. The retirement benefits from this fund are computed on the basis of the member's sex, total service, age at retirement, and the average salary earnable in the three highest consecutive years of earnings. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System benefits to local members on the basis of service credited by the local systems, and the amount of local fund allowances.			
12				
13				
14	The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935, and July 1, 1944, together with the interest earned thereon. Chapter 1395, Statutes 1955, has reopened this fund for additional member contributions. Lack of information at the current date precludes the estimating of any future contributions to be derived under this provision. Members who have contributed to this fund receive an annuity at the time of their retirement but the benefit is based solely on the value of the members' accumulated contributions.			
15				
16

**EXPLANATION OF SUNDRY OTHER FUNDS FOR WHICH DETAIL
TRANSACTIONS ARE NOT REPORTED IN THE BUDGET**

(For fund balances see Schedule 6)

BALLOT PAPER REVOLVING FUND: Created to provide funds for the purchase of paper stock for printing ballots for state elections. The fund is reimbursed from the sale of the stock to the several counties.

OLD AGE AND SURVIVORS INSURANCE REVOLVING FUND: A revolving fund for administration of public employees and employer's contributions to old age and survivors insurance programs.

PAY ROLL REVOLVING FUND: A revolving fund to provide for the central pay roll system.

TOLL BRIDGE AUTHORITY REVOLVING FUND: The fund was created to pay necessary expenses of the Toll Bridge Authority under the direction of the Department of Public Works in building, purchasing, or acquiring toll bridges and approaches thereto. The fund is replenished as specific toll bridges are acquired and construction funds or toll revenues become available.

INDIA BASIN SINKING FUND: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL SINKING FUND NO. 2: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL SINKING FUND NO. 3: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL SINKING FUND NO. 4: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL NO. 4 (Bond Fund): All the authorized bonds have not been sold to date. No estimate has been made of the probable future sale of these bonds nor the construction of the projects from the proceeds of the sale.

MONTAGUE WATER CONSERVATION DISTRICT CONDEMNATION FUND: There remains a balance of \$48 from a deposit of \$29,054 under court order in 1932. The district condemned land in Siskiyou County and was required to make the deposit in order to obtain possession of the land. The fund was abolished and the balance will be transferred to the General Fund.

PUBLIC BUILDING RECONSTRUCTION FUND: Contains the unexpended remainder of federal funds advanced to the State for replacement and reconstruction of public buildings destroyed by earthquakes since January, 1933. The fund is reimbursed for any amounts advanced and returned to the Federal Government. There is no current activity in this fund. The fund was abolished and the balance will be transferred to the General Fund.

RICHMOND-SAN RAFAEL BRIDGE CONSTRUCTION FUND: Consists of proceeds from sale of bonds issued in the name of the Toll Bridge Authority. Moneys in this fund may be used for construction of the Richmond-San Rafael Bridge.

SAN FRANCISCO-OAKLAND BAY BRIDGE CONSTRUCTION FUND: Consists of proceeds received from the sale of the revenue bonds sold for refinancing of the San Francisco-Oakland Bay Bridge.

SAN FRANCISCO HARBOR REVENUE BOND FUND: Receives revenues pledged for payment of principal and interest on bonds issued under the San Francisco Revenue Bond Act of 1951.

SAN FRANCISCO HARBOR CONSTRUCTION FUND: Consists of proceeds from sale of revenue bonds issued in the name of the Board of State Harbor Commissioners for improvement of the San Francisco Harbor.

PUBLIC HEALTH FEDERAL FUND: Created to provide for accounting for receipt and disbursement of federal moneys for public health purposes.

SCHOOL LAND FUND: A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.

SCHOOL LAND DEPOSIT FUND: Consists of deposits made by applicants for purchase of school lands. Balance consists of applications not yet acted upon. There is no current activity in this fund.

SOCIAL WELFARE FEDERAL FUND: Created to provide for accounting for receipt and disbursement of federal moneys for social welfare purposes.

SOUTHERN CROSSING ENGINEERING FUND: Consists of proceeds from sale of revenue bonds issued in the name of the Toll Bridge Authority. Moneys in this fund may be used for engineering studies of an addition crossing of the San Francisco Bay, and for refunding advances made from the General Fund and State Highway Fund.

SPECIAL DEPOSIT FUND: Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. There is impounded oil royalties held pending final decision of ownership of marginal sea lands. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.

SPECIAL DEPOSIT FUND: SAN FRANCISCO WORLD TRADE CENTER AUTHORITY ACCOUNT: This account within the Special Deposit Fund was authorized by Chapter 1189, Statutes of 1949, for expenses incidental to the acquisition, construction, financing, promotion, and operation of a world trade center in San Francisco. Funds were authorized from the San Francisco Harbor Improvement Fund, subject to repayment from the sale of revenue bonds. The authority is cooperating with the Board of State Harbor Commissioners.

STATE PARK CONTINGENT FUND: Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions, or administration of the State Park System. The amounts received are disbursed in accordance with the provisions of the donations.

SURPLUS MONEY INVESTMENT FUND: Moneys in the various special funds which are not currently needed are declared surplus and transferred to this fund where they are available for investment. The money is returned to the special funds when needed. The interest received is shown as revenue for those funds which contribute their excess cash. The General Fund receives that interest attributable to revolving funds, trust funds and other funds which cannot receive any increment.

As the transactions of this fund involve the purchase and sale of securities as well as receipts of surplus moneys and disbursement of interest earned, no estimate is made of the volume of such transactions.

TAX-DEEDED LAND RENTAL TRUST FUND: Receipts are derived from leases made by the State Controller covering property deeded to the State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.

TEACHERS' RETIREMENT DISBURSEMENT FUND: This is a fund used for the convenience of accounting for disbursements for teachers' retirement benefit payments. Moneys are transferred to this fund from the Teachers' Permanent Fund and the Teachers' Retirement Annuity Fund.

TORRENS TITLE ASSURANCE FUND: Fund contains unexpended balance of fees and investment income of one-tenth of 1 percent of assessed value of land and improvements insured under the Torrens Title Assurance Act. An outstanding judgment against the fund exceeds the assets of the fund. There is no current activity in the fund.

TREASURY TRUST DEPOSITS: Provides for the State Treasurer's central banking system.

UNCLAIMED PROPERTY FUND: This fund accounts for all unclaimed moneys held by the State.

VOCATIONAL REHABILITATION FEDERAL FUND: Created to provide for accounting for receipts and disbursement of federal moneys for vocational rehabilitation purposes.

Department of Finance—Fairs and Expositions Division

DISTRICT AND COUNTY AGRICULTURAL FAIRS AND CITRUS FRUIT FAIRS

GENERAL ANALYSIS

The expenditure programs of the District and County Agricultural Fairs and the Citrus Fruit Fairs are included in this budget. On the following pages are shown summaries of the budgets for the 51 district fairs, the 24 county fairs, and the two citrus fruit fairs now in existence. Each budget contains a statement of revenues, expenditures, surplus, and a brief statement of the history and program of the fair.

The budgets of the California State Fair and the Sixth District Agricultural Association are not included in this section. The complete budgets for these two agencies are included in the State Operations Section and the Capital Outlay Section of the Budget. The budget for the California State Fair will be found on pages 464 to 471 and on pages 1136 to 1139. The budget of the Sixth District Agricultural Association will be found on pages 472 to 474 and on pages 1140 and 1141.

The Department of Finance, through the Fairs and Expositions Division, supervises the operations of 74 district and county fairs in California which receive financial assistance from the State. The Los Angeles County Fair and the two citrus fruit fairs are not under the supervision of the Fairs and Expositions Division. Fifty-one of the agencies are district agricultural associations and 23 are county fairs. District agricultural associations are state agencies and are administered by a board of eight directors appointed by the Governor for four-year terms. County fairs are under direction of the board of supervisors and usually are conducted by a county fair association as an agent of the board of supervisors.

Agricultural districts, as well as county fairs, are authorized by legislative action. Boundaries of the agricultural districts are fixed by the Legislature. Purpose of the associations is "holding fairs, expositions and exhibitions of all of the industries and industrial enterprises, resources and products of every kind or nature of the State with a view of improving, exploiting, encouraging, and stimulating the same."

As district and county fairgrounds facilities have been greatly enlarged and improved in recent years, all-year use of the facilities has shown marked growth. Interim activities include a variety of events—community gatherings, recreational programs, conventions, livestock sales, etc. Fairgrounds facilities also have been used as farm labor camps and Red Cross and relief headquarters during disasters such as the Northern California floods. Several are being occupied by school students in districts where there is a shortage of classrooms.

Full-time managers are employed by both district and county fairs. Other permanent employees of district agricultural associations have civil service status.

In an effort to improve the fair program in California, the Fairs and Expositions Division cooperates in the holding of schools of instruction for fair managers and directors; sponsors annual conference for training of judges who officiate at the fairs; holds annual meetings with Future Farmer and Four H officials and with representatives of breed associations, and exhibitors' groups to revise rules and regulations and the master premium list which details maximum amounts that can be paid for the many classes and types of exhibits.

A Directors' Handbook and a Manual of Procedure are also available to all fair managers and directors as a means of helping improve management practices.

These functions and activities are in addition to the technical supervision by the Department of Finance over these 74 agencies.

The law does not restrict the area to be served by a district, county, or citrus fair. Some of the fairs attract and encourage exhibitors from all over the State, while the exhibitors at other fairs are limited to the district or county in which the fair is conducted or to such district or county and contiguous areas.

In the majority of cases, fair operations are accounted on a calendar year basis. However, the following fairs adopted a fiscal year ending June 30th:

- 3d District Agricultural Association
- 36th District Agricultural Association
- 39th District Agricultural Association
- 45th District Agricultural Association
- Riverside County Fair
- Cloverdale Citrus Fair

The fiscal year of the National Orange Show is from May 1st to April 30th.

District Agricultural Associations

Regional agricultural societies first received financial assistance from the State in 1861. After the adoption of the new Constitution of 1879, the regional agricultural societies were succeeded by district agricultural associations authorized by the Legislature of 1880 as state agencies. Section 80 of the Agricultural Code fixes the boundaries of 52 agricultural districts. There are 51 districts organized and holding fairs in addition to the Sixth District which maintains a permanent exhibit in Los Angeles.

The organization and operation of district agricultural associations are governed by Sections 80 to 93 of the Agricultural Code. District agricultural associations as state institutions are subject to the laws and administrative regulations which apply to state agencies generally and to specific rules and regulations which apply only to district agricultural associations or to district and county fairs. District fairs are conducted under budgets approved by the Department of Finance and practically every action taken by an agricultural association requires departmental approval. The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

Revenues received by the 6th District Agricultural Association, Los Angeles, are deposited in a special fund in the State Treasury and this association operates out of this special fund under appropriation by the Legislature. This district does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The 1-A District Agricultural Association, San Francisco, receives two continuing appropriations from the State. An appropriation of \$100,000 per year for support is provided in Section 19622 of the Business and Professions Code. An annual appropriation of \$65,000 per year for the support of the Grand National Junior Livestock Exposition conducted by the 1-A District is provided by Section 19626.6. This district does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 50 district agricultural associations receive annual allocations on the basis of premiums paid at their respective fairs.

County Agricultural Fairs

The majority of county fairs are conducted under the provisions of Government Code Section 25905, and receive allocations under the provision of Section 92 of the Agricultural Code. In a few cases, county fairs are conducted directly under other general provisions of the Government Code. County fairs, except Los Angeles County Fair, conduct their operations under budgets approved by the Department of Finance. The Audits Division of the Department of Finance audits the premium awards made at the fairs and makes post-audits as well.

The Los Angeles County Fair is conducted under the provisions of Section 25906 of the Government Code. The County of Los Angeles receives an annual appropriation of \$125,000 for the support of the fair under the provisions of Section 19622 of the Business and Professions Code. The county does not receive an allocation under the provisions of Section 92 of the Agricultural Code.

The remaining 23 counties which receive funds for the encouragement of agricultural fairs receive allocations under the provisions of Section 92 of the Agricultural Code.

Department of Finance—Fairs and Expositions Division

DISTRICT AND COUNTY AGRICULTURAL FAIRS AND CITRUS FRUIT FAIRS—Continued

GENERAL ANALYSIS—Continued

Citrus Fruit Fairs

- Citrus fruit fairs receive a state apportionment under the provisions of Section 19624(a), Business and Professions Code.
- The National Orange Show, a nonprofit corporation, receives an annual allocation from the first \$100,000 of the 5 percent of the first balance of the Fair and Exposition Fund which is appropriated for the encouragement of citrus fairs. To date, the National Orange Show is the only citrus fair conducted in a county having a population in excess of 160,000 which has qualified under the definition of citrus fruit fairs as contained in Section 94 of the Agricultural Code. In any year in which the 5 percent of the first balance is equal to or exceeds \$100,000 the National Orange Show receives the full amount of \$100,000.
- The Cloverdale Citrus Fair, a nonprofit corporation which conducts a citrus fair at Cloverdale, California, has qualified to receive an annual allocation of \$15,000 each year. This annual allocation comes out of that portion of the 5 percent of the first balance of the Fair and Exposition Fund which exceeds \$100,000 in any year.
- Section 94.5 of the Agricultural Code provides that upon dissolution of a citrus fair all property of the fair or association after payment of outstanding debts shall escheat to the State. The citrus fairs do not receive allocations under the provisions of Section 92 of the Agricultural Code.

Allocation of State Funds

- Sections 19622, 19624, 19626(c) and 19626.6 of the Business and Professions Code provide that part of the revenue received from pari-mutuel wagering on horse racing shall be used for the support and encouragement of and capital outlay at district and county agricultural fairs and citrus fruit fairs. A statement showing the distribution of the Fair and Exposition Fund appears in the Capital Outlay section of the budget on pages 1143 and 1144.
- Section 19622 makes annual appropriations to district and county agricultural fairs as follows:
- | | |
|---|-----------|
| Support of the Los Angeles County Fair..... | \$125,000 |
| Support of 1-A District Agricultural Association..... | 100,000 |
- Section 19624 provides that 5 percent of the balance remaining after deducting certain appropriations shall, subject to statutory limitation, be paid to citrus fruit fairs. This section also provides that 40 percent of the balance shall, subject to statutory limitations, be apportioned for encouragement of county and district agricultural fairs under the provisions of Section 92 of the Agricultural Code.
- Section 19626(c) makes the remaining balance of the Fair and Exposition Fund after providing for the appropriations made in the Business and Professions Code and other laws available for capital outlay purposes at State, County, District, and Citrus Fruit Fairs. These funds are allocated by the Director of Finance upon approval of the State Public Works Board.
- Section 19626.6 provides an annual appropriation of \$65,000 for support of the Grand National Junior Livestock Exposition, 1-A District Agricultural Association.
- Apportionments under the provisions of Section 92 of the Agricultural Code are forwarded to each fair in January of the year following the fair on which such allocations are based. Consequently, they are not available for payment of obligations during the calendar year in which they are earned. Provision is made for advances from state funds of amounts necessary to finance operations during the year, limited to the amount the fair will be entitled to in the subsequent apportionment. State fund operating balances of less than \$65,000 at the end of the year will necessitate advances from future apportionments or other means.
- The funds allocated for the encouragement of district and county agricultural fairs under the provisions of Section 92 of the Agricultural Code are allocated on the basis of premiums paid at the annual fairs conducted by the respective districts and counties subject to two limitations. The amount of premiums paid by a fair which may be used as a basis of allocating funds to that fair is limited under the provisions of Section 92 of the Agricultural Code. This limitation on each individual district or county increases each year that a fair is held. The maximum amount which may be allocated to any one fair in any one year is limited to \$65,000 under the provisions of Section 19624 of the Business and Professions Code.
- The fairs which expect to receive allocations under the provisions of Section 92 of the Agricultural Code submit their proposed premium lists for review by the Fairs and Expositions Division before the premium lists are printed. The proposed premium lists are reviewed to determine if they comply with the Master Premium List and to determine the suitability of the proposed offerings for the individual fair.

Accounting Procedures

- Effective January 1, 1956, accounting procedures prescribed for agricultural fairs were revised to bring them into closer alignment with the general state accounting procedures and provide information on operations that was considered necessary for proper review of fair activities. The principal change in accounting treatment involved bringing capital expenditures into coordination with the general state accounting procedure. Stated briefly, this consists of accounting deposits in the Architecture Revolving Fund as capital expenditures at the time of the deposit rather than upon completion report by the Division of Architecture. The latter method was used by fairs in previous years. In addition there has been provided a "Capital Outlay Fund" in order to segregate those assets available for capital outlay or set aside for capital outlay expenditures in the future. This procedure is in line with the general state accounting procedures for segregation of capital outlay funds. Other amendments of accounting procedures were primarily reclassifications of expenditure accounts to provide more adequate information on operations.
- The amounts presented herewith have been adjusted for the years 1954 and 1955 to reflect the changes in accounting procedures to provide proper comparisons. As a result, year-end available balances will not agree with the operating balances reflected in audit reports for the calendar year 1954 and report on fair operations issued by the Audits Division for that year.

SUMMARY OF REVENUES, EXPENDITURES, AND SURPLUS—DISTRICT, COUNTY, AND CITRUS FRUIT FAIRS

	Balance beginning of year	1954 *		Balance end of year	1955 *		Balance end of year	1956 *		Balance end of year

1	GENERAL ANALYSIS									
2	The 1-A District Agricultural Association was organized on February 26th, 1931, and has conducted a livestock show at the Cow									
3	Palace located on the boundaries of San Francisco and San Mateo Counties. Since 1946 the senior livestock shows have generally									
4	been conducted in the fall of the year and featured a national horse show and rodeo in addition to a livestock auction. Apportion-									
5	ments are received by the 1-A District Agricultural Association for support and conduct of the show under the provisions of Sec-									
6	tion 19622 of the Business and Professions Code. Since 1951 the association has received an additional apportionment for the									
7	purpose of conducting a junior show generally held in April of each year. Currently this appropriation is in the amount of									
8	\$65,000 annually under the provisions of Section 19626.6 of the Business and Professions Code. The data set forth below segre-									
9	gates the operations of each of the two shows and the general operations of the association.

This advance is being repaid to the Fair and Exposition Fund from revenues at the rate of \$30,000 for 1954 and \$10,000 a year thereafter and has been segregated from amounts available for operations as shown above.

2D DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the San Joaquin County Fair at Stockton)

LINE	FUND CONDITION	ACTUAL CALENDAR YEAR OF 1954			ACTUAL CALENDAR YEAR OF 1955			PROPOSED CALENDAR YEAR OF 1956		
		San Joaquin County Fair Assn. Fund	State and District Fund	Total	San Joaquin County Fair Assn. Fund	State and District Fund	Total	District Fund	State Fund	Total
1	GENERAL ANALYSIS									
2										
3										
4	The association was formed in 1922 and has sponsored the San Joaquin County Fair since 1936. Prior to that time, the history of the									
5	San Joaquin County Fair is traceable back to 1860. Annual fairs have been conducted on the association's fairgrounds of approxi-									
6	mately 67 acres located in the City of Stockton. The district has conducted fairs through the San Joaquin County Fair Associa-									
7	tion acting as agent for the 2d District under contract. The district association proposes to conduct the 1956 fair as a direct									
8	operation rather than through the third party association. The 1955 fair was conducted from August 19th to 27th and consisted of									
9	general livestock and other exhibits and included horse racing with pari-mutuel wagering. The proposed 1956 fair is to be									
10	conducted from August 17th to 26th.

GENERAL ANALYSIS									
The association was organized in 1952 under amendments to Section 80 of the Agricultural Code approved by the Legislature in 1951. Annual fairs are conducted on property adjacent to Tulalake, consisting of approximately 40 acres, deeded to the association from the United States Bureau of Reclamation. The 1955 fair was conducted from September 4th to September 6th and consisted of general livestock and other exhibits. The proposed 1956 fair is to be conducted from September 2d to September 4th.

1	GENERAL ANALYSIS									
2										
3										
4	The association was organized in 1934. Annual fairs are conducted on the association's property located in Yuba City. The 1955									
5	fair was conducted from July 27th to 31st and consisted of general livestock and other exhibits. The proposed 1956 fair is to									
6	be conducted from July 24th to 29th. Severe damage was sustained by the fairgrounds during the December floods in 1955 in									
7	Yuba City and part of the records were lost covering 1955 operations. The budget for 1956 shown below does not include any									
8	amounts to cover flood rehabilitation. Such amounts are proposed to be met by allocations under the provisions of Section 19626									
9	of the Business and Professions Code.

1	GENERAL ANALYSIS									
2										
3										
4	The present association dates from February 4, 1953, the first fair being held in that year. Fairs are now conducted on property located on the outskirts of the City of Bishop of approximately 38 acres leased on a 50-year basis from the Los Angeles Department of Water and Power with provision for payment of an amount equivalent to taxes as rental. The 1955 fair was conducted from September 2d to September 5th and consisted of general livestock and other exhibits. The proposed 1956 fair is to be conducted from August 31st to September 3d.

2										
3										
4	Present activities of the district date from 1934. Annual fairs are conducted on association's fairgrounds leased from the County									
5	of Fresno and located just outside the City of Fresno. The lease expires in 1998. The 1955 fair was conducted from Sep-									
6	tember 30th to October 9th and consisted of general livestock and other exhibits. Racing with pari-mutuel wagering has been a									
7	continuing feature of the Fresno District Fair. The proposed 1956 fair will be conducted from October 5th to October 14th.

22D DISTRICT AGRICULTURAL ASSOCIATION

(Conducting the Southern California Exposition and San Diego County Fair at Del Mar)

LINE	FUND CONDITION	ACTUAL CALENDAR YEAR OF 1954			ACTUAL CALENDAR YEAR OF 1955			PROPOSED CALENDAR YEAR OF 1956		
		District Fund	State Fund	Total	District Fund	State Fund	Total	District Fund	State Fund	Total
1	GENERAL ANALYSIS									
2										
3										
4	The present activities of the 22d District Agricultural Association date from 1933. Annual shows are conducted on the associa-									
5	tion's fairgrounds located at Del Mar consisting of general livestock and other exhibits and a national horse show. In 1936									
6	an agreement was entered into with the Del Mar Turf Club granting a franchise for the purpose of conducting racing meets on									
7	association grounds. Since that time, the Del Mar Turf Club has advanced considerable amounts of money to the association for									
8	capital improvements on the grounds under an arrangement whereby annual payments are made to the Turf Club by deduction									
9	from the rental payable by the Turf Club. The rental is based on a percentage of pari-mutuel wagering during the race meets.									
10	Several amendments to this franchise agreement have been made over a period of years and additional advances have been made									
11	from time to time by the Del Mar Turf Club. In 1954 a subfranchise agreement was entered into between the Del Mar Turf Club									
12	and Operating Company, Incorporated, for the conducting of race meetings although the Del Mar Turf Club still remains the pri-									
13	mary responsible party under the original lease. During 1954 and 1955 additional advances were made to the association for the									
14	purpose of financing capital improvements as explained above and as shown on the statements below. In presenting the data									
15	below, we have segregated the long term liability payable from future revenues from the balances available for operation. The									
16	1955 fair was conducted from June 24th to July 4th. The proposed 1956 fair is to be conducted from June 29th to July 8th.

1	GENERAL ANALYSIS									
2										
3										
4	Present activities of the association date from 1937. Annual fairs are conducted on the association's grounds known as Bolado Park									
5	located approximately eight miles from the City of Hollister. San Benito County Fair is also conducted on these grounds, the									
6	county having made extensive improvements thereon. The 1955 fair was conducted from September 30th to October 2d and									
7	consisted of general livestock and other exhibits. The proposed 1956 fair is to be conducted from September 28th to 30th. The									
8	rather large nonfair revenues and expenditures as shown below are due to the fact that the association operates, on a year-									
9	around basis, a swimming pool, picnic area, barbeque facilities, and other facilities.

1	GENERAL ANALYSIS									
2										
3										
4	The association was organized in 1921. No information on activities is available prior to 1930. Annual fairs are conducted on associ-									
5	ation fairgrounds located in the City of Imperial and leased from the County of Imperial at an annual rental of \$5. The lease									
6	expires in 1987. The 1955 fair was conducted from February 26th to March 6th and consisted of general livestock and other									
7	exhibits. The proposed 1956 fair is to be conducted from February 24th to March 5th. In view of the fact that fairs are held									
8	early in the year, with the approval of the Department of Finance, the association has adopted a fiscal year ending June 30th									
9	for accounting purposes.

1	GENERAL ANALYSIS									
2										
3										
4	The association was organized in 1935, pursuant to legislative enactments approved in that year. Annual fairs are now conducted									
5	on the association's fairgrounds located in the Bandini section of East Los Angeles. Formerly, annual fairs were conducted for									
6	many years at the Los Angeles Union Stockyards under a contract with the Great Western Livestock Exhibit Association.									
7	Since moving to their new quarters in 1953 the association has conducted the show directly. Exhibits are confined to the live-									
8	stock department with particular emphasis on market qualities. An important feature of the show is an annual livestock									
9	auction. The 1955 fair was conducted from November 26th to December 1st. The proposed 1956 fair is to be conducted from									
10	November 24th to 29th.

		District Fund	State Fund	Total	District Fund	State Fund	Total	District Fund	State Fund	Total
1	GENERAL ANALYSIS									
2										
3										
4	The association was formed in 1948 pursuant to amendments to the Agricultural Code passed in 1947. The association succeeded to									
5	the activities of the Sacramento County Fair held at the City of Galt on county fairgrounds since 1937. Since 1954, fairs have									
6	been conducted on the grounds of the California State Fair due to abandonment of association grounds in Galt. The 1955 fair was									
7	conducted June 2d to June 5th and featured junior department exhibits with a minimum of senior department entries. The pro-									
8	posed 1956 fair is to be conducted July 5th to July 8th.

3										
4	Sponsorship of the fair by the County of Butte dates from 1938. Early fairs were conducted by the Paradise Fair and Apple Show									
5	Association at Paradise, California. Since 1940, fairs have been held at Gridley on the county's fairgrounds by the Butte County									
6	Fair Association under agreement with the board of supervisors under the provisions of Section 25905, Government Code. The									
7	1955 fair was conducted from August 25th to 28th and consisted of general livestock and other exhibits. The proposed 1956 fair									
8	is to be conducted from August 31st to September 3d.

2	GENERAL ANALYSIS									
3										
4	The fair is conducted under the direction of the board of supervisors who appoint directors to manage the operation of the fair. In									
5	the past, these directors have been men from the membership of the Humboldt County Fair Association, an organization founded									
6	in 1897 and which has assisted or conducted county fairs each year since that time with the exception of the war-years period.									
7	Annual fairs are conducted at the county fairgrounds located in the City of Ferndale. The 1955 fair was conducted from August									
8	15th to August 21st and featured general livestock and other exhibits with particular emphasis on dairy cattle and sheep. The									
9	proposed 1956 fair is to be conducted from August 10th to August 18th. For many years a feature of the show has been horse									
10	racing and pari-mutuel wagering, the only such activity of this nature in this part of the State.

3										
4	The fair is conducted by the Los Angeles County Fair Association under an agreement with the Los Angeles County Board of Super-									
5	visors under the provision of Government Code, Section 25906. The Los Angeles County Fair Association was incorporated as a									
6	nonprofit corporation in 1940 and succeeded to the Los Angeles County Fair, a nonprofit stock corporation, at that time. Los									
7	Angeles County receives allocations for conducting the fair under the provisions of Section 19622 of the Business and Professions									
8	Code and under its agreement with the Los Angeles County Fair Association reimburses the association for expenditures to the									
9	extent of the state appropriations. The Department of Finance does not have any jurisdiction over the activities of the fair other									
10	than annual audit examinations by the Audits Division of the department. Presented herewith are operations figures developed									
11	from the association's and county records summarized in accordance with the general chart of accounts for other state sponsored									
12	fairs.

1	GENERAL ANALYSIS									
2										
3										
4	The present activities of the fair date from 1940. Annual fairs are conducted by the Plumas County Fair Association under a con-									
5	tract with the board of supervisors under provisions of Government Code, Section 25905, on county fairgrounds partially owned									
6	by the county and partially leased from the United States Forest Service under a lease expiring in 1965, located just outside the									
7	City of Quincy. The 1955 fair was conducted from August 11th to August 14th and consisted of general livestock and other									
8	exhibits. The particular feature of the fair in recent years has been the Appaloosa Horse Show. The proposed 1956 fair is to									
9	be conducted from August 9th to August 12th.

2										
3										
4	Sponsorship of the fair by Riverside County dates from 1938. Annual fairs are conducted in the county's fairgrounds located just									
5	outside the city limits of Indio by an advisory committee appointed by the board of supervisors. The particular feature of the									
6	fair has always been the date exhibits, but has included livestock and other general exhibits. Entertainment that has attracted									
7	national attention includes camel races. The 1955 fair was conducted from February 17th to 22d. The proposed 1956 fair is to be									
8	conducted from February 16th to 22d.

2										
3										
4	The present activities of the fair date from 1937 although private shows were held prior to that date from 1927. Annual fairs are									
5	held by the San Benito Saddle Horse Association under a contract with the county under the provisions of Government Code,									
6	Section 25905, at Bolado Park located about eight miles from the City of Hollister and owned by the 33d District Agricultural									
7	Association. Improvements to these grounds have been made by San Benito County to a total recorded value of \$325,156 on									
8	December 31, 1955. The 1955 fair was conducted from June 24th to June 26th and, as in the past, featured light horse exhibits									
9	and a horse show. The proposed 1956 fair is to be conducted from June 22d to June 24th.

1	GENERAL ANALYSIS									
2										
3										
4	Sponsorship of the fair by the County of San Mateo dates from 1929. Annual fairs are conducted on county fairgrounds located									
5	just north of Bay Meadows race track at Belmont, San Mateo County, by the San Mateo County Fair Association under a									
6	contract with the Board of Supervisors under the provisions of Section 25905, Government Code. In the past, annual fairs have									
7	featured floricultural and agricultural exhibits and some junior livestock exhibits. A particular feature has been a horse racing									
8	meeting conducted on Bay Meadows race track under a contract with the California Jockey Club. The 1955 fair was conducted									
9	from August 5th to 13th. The proposed 1956 fair is to be conducted from August 3d to 11th.

2	GENERAL ANALYSIS									
3										
4	Activities of the fair date from January, 1946, although no allocations were received by the association under Section 92 of the									
5	Agricultural Code until 1950. Annual fairs are conducted on approximately 150 acres of land north of the City of Vallejo by									
6	the Solano County Fair Association under agreements with the Board of Supervisors under the provisions of Section 25905 of									
7	the Government Code. A particular feature of the fair in recent years has been a race meeting with pari-mutuel betting. The									
8	1955 fair was conducted from July 8th to 16th and consisted of general livestock and other exhibits. The 1956 fair is to be con-									
9	ducted July 6th to 14th.

CLOVERDALE CITRUS FAIR

(Conducting the Cloverdale Citrus Fair at Cloverdale)

LINE	FUND CONDITION	Actual Fiscal Year Ending June 30, 1954			Actual Fiscal Year Ending June 30, 1955			Proposed Fiscal Year Ending June 30, 1956		
		Citrus Fair Fund	State Fund	Total	Citrus Fair Fund	State Fund	Total	Citrus Fair Fund	State Fund	Total
1	GENERAL ANALYSIS									
2	This fair receives a state allocation under Section 19624(a) of the Business and Professions Code, the first such allocation being									
3	made in 1945. The Cloverdale Citrus Fair was incorporated as a nonprofit organization in 1951, prior fairs having been conducted									
4	by the Cloverdale Chamber of Commerce. Operations of the Cloverdale Citrus Fair do not come under the supervision of the									
5	Department of Finance other than through audit examinations conducted by the Audits Division of the department. No figures									
6	are presented covering the proposed activities for 1956 inasmuch as such budgets do not come under the Department of Finance.									
7	Annual shows are conducted in the association's pavilion located in the City of Cloverdale featuring citrus displays. The 1955									
8	show was conducted from February 18th to 22d. The proposed 1956 show is to be conducted from February 24th to 26th.

2										
3	GENERAL ANALYSIS									
4										
5	The National Orange Show was incorporated in 1922 and is a continuation of a nonprofit association with some modifications formed in 1910. It appears that the early history of citrus fairs in San Bernardino can be traced back to 1879. The association receives an allocation under the provisions of Section 19624 of the Business and Professions Code but does not come under the jurisdiction of the Government Code or other codes pertaining to state organizations, its actions being governed by the Corporation Code. The only jurisdiction the Department of Finance has of the activities of the association pertains to an annual audit to determine that the appropriations have been used for the general purposes provided by the statutes. Annual fairs are conducted by the association on grounds owned by the association and located in the City of San Bernardino. The 1955 show was conducted from March 17th to 27th. The proposed 1956 fair is to be conducted from March 8th to 18th.
